for use by Grades 6-8 educators the contributed model lessons in this book walk teachers through the process of applying critical frameworks to instruction using standards-based mathematics to explore, understand, and respond to social injustices. Learn to plan daily instruction that engages young adolescents in mathematics explorations through age-appropriate, culturally relevant topics such as health and economic inequality, human and civil rights, environmental justice, and accessibility. Features include: Content cross-referenced by mathematical concept and social issues; Connection to Learning for Justice's social justice standards; Downloadable teacher materials and lesson resources; Guidance for lessons driven by young adolescents' unique passions and challenges; Connections between research and practice; Written for teachers committed to developing equitable and empowering practices through the lens of mathematics content and practice standards, as well as social justice standards; this book will help connect content to young adolescents' daily lives, strengthen their mathematical understanding, and expose them to issues that will support them in becoming active agents of change and responsible leaders.

Teaching Mathematics in the Block Carla Hunt, 2013-10-30 Provides detailed instructional strategies, sample lesson plans, and sample assessments so that mathematics teachers can make the best use of the additional time.

Diego Agent of Change: Addressing the Public Education State of Emergency Howard D. Zmudy, 2025-08-26 The curriculum approach presented is called Students Empowering Themselves (SET). Going for the Magic (SET) is based on the quality of sameness within each human being: the desire to be happy. A consistent response we received for 50 years while working with youth and adults of all ages and cultures from around the world. We call it the Common Thread Denominator Experience. It is more than a simple intervention; applicable in all learning environments, it is an evolution that unfolds as all participants come together as an inclusive community working toward a common goal. It is driven by empowerment and sustained by the joy of self-discovery, inspiring the desire to uncover more about oneself. Schonert-Reichl (2014) stated: "Educating the heart refers to the importance of not only focusing on developing the cognitive aspects of our minds but also all the qualities that make us human: our hearts, and ultimately give us meaning in our lives." Research has demonstrated the positive impacts of developing our hearts: the way we feel and relate to one another. In fact, heart and mind learning are interconnected. SET is eclectic, including the application of evidence-based neuroscience to instructional strategies that are brain research-based and trauma-informed, securing a pathway to nurturing and building resilience. It offers a positive emotional learning environment that reduces stress and promotes building a foundation for a love-to-learn attitude where learners become leaders.

100 Math Workouts (ENHANCED eBook) Tony G. Williams, 2009-09-01 An essential tool for today's middle school mathematics teachers, this book helps students explore, think critically, analyze, and have fun with math. In an age when teachers have to compete for their students' attention against television, video games, the Internet, peer pressure, and many other factors, these workouts are designed to provide fun, thought-provoking, skill-building ways to make math exciting. Begin each math lesson with one of these engaging activities, which include calculator tricks, factorials, time, and
