The broad objective of this special issue of Mitigation and Adaptation Strategies for Global Change is to address some of the
gaps in our knowledge and understanding of the policies programs and measures that might be applied to natural hazards
and their impacts in an era of climate change Given the global impacts of climate change and world wide pattern of
increasing losses from natural hazards we necessarily adopt an international perspective The speci c goals of the special
issue are to a encompass experiential aspects emphasizing current practice of mitigation and its associated measures and
their results and b explore primary or root causes of alarming shifts in human and economic costs of environmental extremes
