Zimsac Economic Paper 3 November 2013 And 2014:

War by Other Means Robert D. Blackwill, Jennifer M. Harris, 2016-04-11 A Foreign Affairs Best Book of 2016 Today nations increasingly carry out geopolitical combat through economic means Policies governing everything from trade and investment to energy and exchange rates are wielded as tools to win diplomatic allies punish adversaries and coerce those in between Not so in the United States however America still too often reaches for the gun over the purse to advance its interests abroad The result is a playing field sharply tilting against the United States Geoeconomics the use of economic instruments to advance foreign policy goals has long been a staple of great power politics In this impressive policy manifesto Blackwill and Harris argue that in recent decades the United States has tended to neglect this form of statecraft while China Russia and other illiberal states have increasingly employed it to Washington s disadvantage G John Ikenberry Foreign Affairs A readable and lucid primer The book defines the extensive topic and opens readers eyes to its prevalence throughout history Presidential candidates who care more about protecting American interests would be wise to heed the advice of War by Other Means and take our geoeconomic toolkit more seriously Jordan Schneider Weekly Standard

Grid-locked African Economic Sovereignty Victor Warikandwa, Artwell Nhemachena, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft

robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions Joshua Mqabuko Nkomo of Zimbabwe Sabelo J. Ndlovu-Gatsheni, 2017-08-17 This book is a pioneering study of Joshua Mqabuko Nkomo a Zimbabwean nationalist whose crucial role in the country's anti colonial struggle has largely gone unrecognized These essays trace his early influence on Zimbabwean nationalism in the late 1950s and his leadership in the armed liberation movement and postcolonial national building processes as well as his denigration by the winners of the 1980 elections Mugabe's Zimbabwe African National Union Patriotic Front The Nkomo that emerges is complex and contested the embodiment of Zimbabwe's tortured trajectory from colony to independent postcolonial state This is an essential corrective to the standard history of twentieth century Zimbabwe and an invaluable resource for scholars of African nationalist liberation movements and nation building
