Zimsec O Level Exam Paper November 2014:

Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Anti-Cartel Enforcement in a Contemporary Age Caron Beaton-Wells, Christopher Tran, 2015-09-24 Leniency policies are seen as a revolution in contemporary anti-cartel law enforcement. Unique to competition law, these policies are regarded as essential to detecting, punishing and deterring business collusion conduct that subverts competition at national and global levels. Featuring contributions from leading scholars, practitioners and enforcers from around the world, this book probes the almost universal adoption and zealous defence of leniency policies by many competition authorities and others. It charts the origins of and impetuses for the leniency movement, captures key insights from academic research and practical experience relating to the operation and effectiveness of leniency policies, and examines leniency from the perspectives of corporate and individual applicants, advisers and authorities. The book also explores debates surrounding the intersections between leniency and other crucial elements of the enforcement system, such as compensation, compliance and criminalisation. The rich critical analysis in the book draws on the disciplines of law, regulation, economics and criminology. It makes a substantial and distinctive contribution to the literature on a topic that is highly significant to a wide range of actors in the field of competition law and business regulation generally. From the Foreword by Professor Frédéric Jenny: fundamental questions are raised and thoroughly discussed in this book, which is undoubtedly the most comprehensive scholarly work on leniency policies produced so far; the book should be required reading for all seeking to acquire a deeper insight into the issues related to leniency policy. It is a priceless contribution.

Economic and Social Rights and the Maintenance of International Peace and Security Claire Breen, 2017-06-14 This text comprises cutting edge research on one of the greatest global challenges: the failure to address systematic economic and social exclusion and attendant violations of economic and social rights (ESR) as a driver of conflict. The text explores what the UN's obligation to maintain international peace and security can mean when it is informed by the requirement to protect and promote ESR rights that play a crucial role in maintaining international peace and security but which are often overlooked. The book considers the extent to which Security Council mandated peace operations have been informed by human rights and efforts to promote economic and social development. The approach is to analyse the extent to which the Security Council has interacted with the General Assembly, the Economic and Social Council, as well as other Charter-based mechanisms such as the Human Rights Council and its predecessor, with particular reference to the role of the Special Procedure Mechanisms. The role of the UN High

Commissioner for Human Rights is also considered In this way the text shows that the connection between peace and security and human rights is well recognised by these organs In addition the text considers States ESR obligations stemming from the extraterritorial application of such rights in the context of peace operations Given that States obligations stemming from ESR have often been neglected the book examines how such provision could be improved using ESR grounded plans reflecting the rights to health food water education work and life The text concludes with a call to reimagine what international peace and security can look like when it is informed by the need to recognise the emergence of post conflict legal obligations based on broader concepts of international peace and security that draw from ESR This text will appeal to legal scholars policy advisors members of the military those working in the area of development NGOs and final year undergraduate and or postgraduate students working in the areas of international law political science and international relations and associated fields of research

New Millennium Woes and Livelihood Struggles in Africa Peter Thomas, Ngonidzashe Marongwe, 2021-05-19 One of the oldest survival pursuits undertaken by the weak and the downtrodden people across the world has been begging. Going back to the ancient Christian biblical times up to the present epoch as well as across varying spatial settings in situations of trouble and tribulations, parts of various communities have resorted to beggary to either overcome immediate adversities or longer term calamities. Drawing on insights from two polar theoretical lenses of Social Constructionism and Social Deconstructionism and guided by a pithy study of the begging across the African continent especially by Zimbabweans, this book troubles the various contours related to the subject of begging. Inter alia, the book considers the concept of begging, the causes of the prevalence of begging across the world and particularly among Zimbabweans, the challenges and benefits associated with the pursuit of alms, the impact of begging in foreign lands as well as some of the strategies that beggars employ to maximize their collections and/or profits. What can be discerned from the book is that for many, begging is one of the last resort undertakings with low pickings. However, from a utilitarian perspective, begging has helped to sustain the impoverished livelihoods of Zimbabweans both inside and outside the borders of the country since the advent of a debilitating crisis experienced from the turn of the new millennium. On the whole, this book seeks to provoke further researches on an important socio-economic area that affects many African communities but has so far been scantily researched. The book is handy for students and practitioners in economic history, African studies, economics, risk and disaster management, social anthropology, political science, and development studies.

Rock | Water | Life Lesley Green, 2020-03-20 In *Rock Water Life*, Lesley Green examines the interwoven realities of inequality, racism, colonialism, and environmental destruction in South Africa, calling for environmental research and governance to transition to an ecopolitical approach that could address South Africa's history of racial oppression and environmental exploitation. Green analyzes conflicting accounts of nature in environmental sciences that claim neutrality amid ongoing struggles for land restitution and environmental justice. Offering in-depth studies of environmental conflict in contemporary South Africa, Green addresses the history of contested water access in Cape Town, struggles over natural gas fracking in the Karoo, debates about decolonizing science, the potential for a politics of soil in the call for land restitution, urban baboon management, and the consequences of sending sewage to urban oceans.

Natural Resource Conflicts M. Troy Burnett, 2016-09-19 Natural resource and environmental conflicts have long been issues confronting human societies. This case-based examination of a wide range of natural resource disputes exposes readers to many contemporary examples that offer reasons for both hope and concern. The Rwandan genocide, the Sudanese civil war, and perpetual instability in the Middle East and Africa: each of these crises have arguably been instigated and maintained by natural resource disputes. China has undertaken a Herculean task to plant hundreds of millions of trees along its margins in an effort to save Beijing from crippling dust storms and halt the expansion of the Gobi desert. Will it work, and is it worth it?

These and many other cases of conflict stemming from natural resource or environmental concerns are explained and debated in this up to date examination of contemporary and ongoing topics The book examines conflicts over precious resources and minerals such as diamonds oil water and fisheries as well as the pursuit of lesser known minerals like Coltan and other rare earth elements important resources in our technological age in remote locations such as Greenland and the Congo Each topic contains an overview and two position essays from different authors thereby providing the reader with highly informative and balanced perspectives Reference entries accompany each topic as well helping students to better understand each issue As the world hurtles into the 21st century these natural resource issues are becoming increasingly important with all global citizens having a significant stake in how these conflicts arise and play out SADC Gender Protocol 2017 Barometer Morna, Colleen Lowe, Makamure, Lucia, 2017-10-04 The SADC Protocol on Gender and Development is the only sub regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol its updating implementation and tracking Originally aligned to the Millennium Development Goals that expired in 2015 SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals SDGs Beijing Plus Twenty and the Africa Agenda 2063 in 2016 In July 2017 the Ministers adopted a Monitoring Evaluation and Reporting Framework MERF that will be the basis of future reporting Now in its ninth edition the 2017 Barometer is the first assessment of the Post 2015 SADC Gender Protocol Moving with the times the Alliance has expanded the two key main yardsticks in the Barometer the SADC Gender and Development Index SGDI and the Citizen Score Card CSC The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice choice and control The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region A wealth of data insights and analysis awaits all readers of the Barometer that will also be made available online and in multi media formats The SADC we want is one in which citizens engage step it up for gender equality and make sure we achieve Planet 50 50 by 2030 *Sport, Culture and Society* Grant Jarvie, 2017-07-20 What can sport do to produce social change in our world today It is impossible to fully understand contemporary society and culture without acknowledging the importance of sport Sport is part of our social and cultural fabric possessing a commercial power that makes it a potent force in the world for good and for bad It has helped to start wars and promote international reconciliation and governments around the world commit public resources to sport Sport matters but how should you make sense of what is going on in the world of sport today Now in a fully revised updated and expanded third edition this critical challenging and comprehensive textbook introduces the study of sport culture and society International in scope it challenges us to reactivate an audacious spirit of activism through sport Full of contemporary examples it places sport at the heart of the analysis and introduces the reader to every core topic and emerging area in the

Petróleo de sangre Leif Wenar, 2021-08-22 Los recursos naturales cimentan el poder de los dictadores del mundo. Autócratas como Putin y los príncipes saudíes invierten el dinero del petróleo en armas y represión. Las milicias del Estado Islámico y el Congo utilizan el dinero del petróleo en atrocidades y municipios. Desde hace décadas los regímenes autoritarios y extremistas financiados por estos recursos han forzado interminables crisis en Occidente y la verdadera fuente de su dinero somos nosotros los consumidores occidentales pagando en la gasolinera y en el centro comercial. En este libro de gran alcance uno de los principales filósofos políticos del momento Leif Wenar analiza las reglas ocultas que amenazan la democracia y el desarrollo y que nos vinculan con las personas más peligrosas del mundo. Petróleo de sangre nos muestra como se puede liderar una revolución pacífica acabando con esta dependencia.
