Footprints McLean Sibanda, 2021-09-06 Footprints is a captivating story about intellectual property IP. It speaks to its role in society, trade, industry and economy and expounds on the actual meaning of IP. The book lays a solid foundation for innovators, entrepreneurs, businesses and nations to realise their full potential through IP policy, legislation, use and practices. McLean Sibanda shares his personal story together with stories and testimonies of fellow travellers taking us through their journey into the field of IP. He meticulously recounts South Africa's path in transforming the management of IP emanating from publicly financed research and development, R & D development of critical human capital and other infrastructure to ensure effective IP commercialisation and technology transfer. Footprints is a timely masterpiece given IP issues in Africa's scramble for Covid-19 vaccines and implementation of the agreement establishing the African Continental Free Trade Area (AfCFTA). The book provides strategies of how African countries can use IP and innovation to develop industries to ensure health, security and trading of goods that can benefit from the AfCFTA. Narrated through a series of significant moments, Footprints demonstrates the importance of vision, solid foundation, collaboration, champions and intentional steps for economic transformation. With glimpses into how countries such as China and Korea used IP to develop their economies, this book makes a compelling case for embracing IP, increased R & D investment, relevant human capital and appropriate use of IP in the development of new products and services necessary for knowledge-based and industrialised economies. Footprints is a must-read for any academic, aspiring intellectual property scholar, policy maker, economist, development activist, entrepreneur, researcher, innovator, professional and technology transfer specialist. Intellectual property is everywhere around us and impacts our lives. For entrepreneurs and businesses alike, intellectual property is about value creation; it is the insurance you need for when you succeed. McLean Sibanda

Sustainable Development in Africa Walter Leal Filho, Rudi Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non-formal education. Sustainable development is very important to Africa, but there is a paucity of publication which documents and promotes experiences from African countries. Due to their complexity, the interrelations between social, economic and political factors related to sustainable development, especially at universities, need to be better understood. There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges. It is against this background that this book has been produced. It is a truly interdisciplinary publication useful to scholars, social movements, practitioners and members of governmental agencies and private companies undertaking research and/or executing projects focusing on sustainability from across Africa. As African nations strive to pursue the UN Sustainable Development Goals, it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on-going and future efforts. The scope of the book is deliberately kept wide and we are

looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies

Neely, 2021-07-12 In *Reimagining Social Medicine from the South* Abigail H Neely explores social medicine s possibilities and limitations at one of its most important origin sites the Pholela Community Health Centre PCHC in South Africa The PCHC s focus on medical and social factors of health yielded remarkable success And yet South Africa s systemic racial inequality hindered health center work and witchcraft illnesses challenged a program rooted in the sciences To understand Pholela s successes and failures Neely interrogates the social in social medicine She makes clear that the social sciences the PCHC used failed to account for the roles that Pholela s residents and their environment played in the development and success of its program At the same time the PCHC s reliance on biomedicine prevented it from recognizing the impact on health of witchcraft illnesses and the social relationships from which they emerged By rewriting the story of social medicine from

Pholela Neely challenges global health practitioners to recognize the multiple worlds and actors that shape health and healing in Africa and beyond Educating Citizen Designers in South Africa Elmarie Costandius, Herman Botes, 2018-09-07

Educating Citizen Designers in South Africa is the first book of its kind to appear in post apartheid South Africa and it is therefore both overdue and extremely welcome. The book aims at sharing critical citizenship design teaching and learning pedagogies by including contributions from a range of design educators and one student who work in different design disciplines such as architecture, graphic and product design. Critical citizenship education is explicated in relation to a range of theories and new and existing models. Numerous contemporary case studies and examples of design projects from a range of South African Higher Education Institutions are included. As such a variety of perspectives emerge including the consensual where the aim of critical citizenship education is viewed as promoting social justice, shared values and critical thinking to the conflicting where critiques are levelled against conceptions of critical citizenship education. Contentious, contesting and contradictory views are inevitable and necessary given the South African context as it is only in open debate that the one point of agreement among the authors, the need for social change, can be worked towards. Prof Deirdre Pretorius, University of Johannesburg.
