Success in the Urban Classroom, 2002 *Research in Education*, 1974 Measuring and Visualizing Space in Elementary Mathematics Learning Richard Lehrer, Leona Schauble, 2023-03-31 Measuring and Visualizing Space in Elementary Mathematics Learning explores the development of elementary students understanding of the mathematics of measure and demonstrates how measurement can serve as an anchor for supporting a deeper understanding of number operations and rational numbers The concept of measurement is centrally implicated in a number of mathematical operations yet is not often given the placement it deserves in the elementary mathematics curriculum By drawing on K 5 classroom research authors Lehrer and Schauble have been able to articulate a learning progression that

describes benchmarks of student learning about measure in length angle area volume and rational number exploring related concepts classroom experiences and instructional practices at each stage Offering a unique research driven resource for helping students develop a deep understanding of measurement to further enhance mathematical understanding as well as further learning in other STEM disciplines the book will be relevant for scholars teacher educators and specialists in math education The book is accompanied by online resources developed for practitioners including instructional guides examples of student thinking and other teacher focused materials helping clarify how to bring concepts of measure and rational number to life in classrooms **Mathematical Reviews** ,2006 Bulletin of the Atomic Scientists ,1970-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
