EPIE Materials Report EPIE Institute,1978 EPIE Materials Report ,1978 World History: Connections to Today Elisabeth Gaynor Ellis,Pearson/Prentice Hall,2003-12 **Living World History** Thomas Walter Wallbank,Arnold Schrier,1964 **History and Life: Teacher's annotated ed** Thomas Walter Wallbank,1977 Resources in Education ,1990-03 *The Illusion of Civil Society* Jon Shefner,2015-11-09 Much has been written about how civil society challenges authoritarian governments and helps lead the way to democratization These studies show that neoliberal economic policies have harmed many sectors of society weakening the state and undermining clientelistic relationships that previously provided material benefits to middle and low income citizens who are then motivated to organize coalitions to work for greater social justice and equality Recognizing this important role played by civil society organizations Jon Shefner goes further and analyzes the variegated nature of the interests represented in these coalitions arguing that the differences among civil society actors are at least as important as their similarities in explaining how they function and what success or lack thereof they have experienced Through an ethnographic examination extending over a decade Shefner tells the story of how a poor community on the urban fringe of Guadalajara mobilized through an organization called the Uni n de Colonos Independientes UCI to work for economic improvement with the support of Jesuits inspired by liberation theology Yet Mexico s successful formal democratic transition won with the elections in 2000 was followed by the dissolution of the coalition Neither political access for the urban poor nor their material well being has increased with democratization The unity and even the concept of civil society has thus turned out to be an illusion *Eco-design for Buildings and Neighbourhoods* Bruno Peuportier,2015-10-27 A growing number of urban inhabitants are aware of pressing environmental concerns This book aims to provide information about relevant environmental quality criteria in urban construction settings before methods are proposed for assessing these criteria These will be extremely helpful to eco building designs commencing from the very early stages of a project site selection program architectural designs to the detailed design construction and management of buildings The book covers eco technologies in the field of energy and water conservation renewable energy waste management and environmentally friendly materials but does not lose sight of comfort and health aspects **Research in Education** ,1972 Journal of Education ,1892 *Prisoners of the Past* Steven Friedman,2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani Friedman argues that the difficulties besetting South African democracy are legacies of the past not products of the post 1994 era South Africa s democracy is often seen as a story of bright beginnings gone astray a pattern said to be common to Africa The negotiated settlement of 1994 it is claimed ended racial domination and created the foundation for a prosperous democracy but greedy politicians betrayed the promise of a new society In *Prisoners of the Past* Steven Friedman astutely argues that this misreads the nature of contemporary South Africa Building on the work of the economic historian Douglass North and the political

thinker Mahmood Mamdani Friedman shows that South African democracy's difficulties are legacies of the pre 1994 past. The settlement which ushered in majority rule left intact core features of the apartheid economy and society. The economy continues to exclude millions from its benefits while racial hierarchies have proved stubborn. Apartheid is discredited but the values of the pre 1948 colonial era, the period of British colonization, still dominate. Thus South Africa's democracy supports free elections, civil liberties, and the rule of law but also continues past patterns of exclusion and domination. Friedman reasons that this path dependence is not as is often claimed the result of constitutional compromises in 1994 that left domination untouched. This bargain was flawed because it brought not too much compromise but too little. Compromises extended political citizenship to all but there were no similar bargains on economic and cultural change. Using the work of the radical sociologist Harold Wolpe, Friedman shows that only negotiations on a new economy and society can free South Africans from the prison of the past.

The Party Leads All Jacques deLisle, Guobin Yang, 2022-09-27. Examining the past, current, and potential future roles of the Communist Party in governing China. The Chinese Communist Party and its policies touch nearly every aspect of life in China and dominate some. An often quoted current phrase, one with roots in the era of Mao Zedong, says the Party leads all. Under the leadership of Xi Jinping, the Party determines much of what is permitted and prohibited in the country's social, economic, and political activity, as well as China's increasingly consequential foreign relations. Even so, the Communist Party always has faced limits on what it can control and it may encounter new obstacles ahead. This book addresses important questions about the current and future roles of the party. Has Xi's tenure brought a qualitative increase in the pursuit or achievement of party control? How is party rule shaped and exercised by internal party dynamics, the party's control over the state, society, economy, foreign affairs, government institutions, and rules and ideology? How serious are the threats to party strength and success posed by Xi's approach to power, corruption in the party's ranks, a rapidly changing society, a fraught international environment, or a possibly overly ambitious agenda for party control? Leading scholars examine these questions from several disciplinary perspectives, each focusing on a key area of the party and its efforts to lead, control, or influence the world around it. This book offers the most comprehensive and up-to-date assessment of the party's roles in China's economy, government, civil society, legal system, military affairs, and foreign policy. It does so at a critical moment with the full contours of the Xi Jinping era in China becoming more evident and as the CCP reaches its 100th anniversary and nears three quarters of a century in power. It will be essential reading for all scholars, students, and policy makers interested in contemporary China.

Monthly Index of Russian Accessions, 1959 **A World View: Test masters**, 1988 *Educational Justice* Howard Ryan, 2017-01-01. That education should instill and nurture democracy is an American truism. Yet organizations such as the

Business Roundtable together with conservative philanthropists such as Bill Gates and Walmart's owners the Waltons have been turning public schools into corporate mills. Their top-down programs such as Common Core State Standards track, judge and homogenize the minds of millions of American students from kindergarten through high school. But corporate funders would not be able to implement this educational control without the de facto partnership of government at all levels channeling public moneys into privatization initiatives, school closings and high-stakes testing that discourages independent thinking. *Educational Justice* offers hope that there's still time to take on corporatized schools and achieve democratic justice in the classroom. Forcefully written by educator and journalist Howard Ryan with contributing authors, the book opens with four chapters that discuss theories on teacher unionism, social justice pedagogy and corporate school reform. These chapters are balanced with four case study chapters documenting exemplary teaching and school site organizing practices in the field. Reports from various educational fronts include innovative union strategies against charter school expansion as well as teaching visions drawn from the vibrant whole language movement. Bold, informative, clearly reasoned, this book is an education in itself, a democratic one at that.
