Understand what is required for competence in own work role

1.1 Describe the duties and responsibilities of own work role

I work as one member of a team of Health Care Assistants in a private nursing home. My aim is to provide the highest standards of care to the residents I care for within the nursing home. This involves respecting the dignity of the individual and ensuring the individual's rights to privacy, dignity, choice and independence are met. I am required to assist residents with mobility problems, providing them with the means to remain mobile eg a walking frame and as much reassurance as is necessary to keep them independently mobile. Some residents have lost the ability to walk and so need a wheelchair. I am required to assist residents with physical disabilities such as incontinence and manual dexterity problems. I help in the care of and use of aids and personal equipment.

I am responsible for making and changing beds and tidying residents' rooms (with permission), undertaking light cleaning duties as needed to ensure that the nursing home is kept clean, pleasant and welcoming at all times.

I follow individuals' care plans carefully, ensuring that all correct procedures are carried out and that contact is polite, friendly, warm and supportive at all times. I respect and maintain residents' confidentiality of information including behaviour, actions and incidents that may occur in the course of day to day care. I report and record any changes in a resident's condition to a senior member of staff on duty. Actions taken as a result of this are reported to all staff members during handover at commencement of a shift. This ensures that all caring and nursing staff are working to the same standards and instructions.

I assist in the administering of medication in accordance with the company's Administration of Medicines Policy. I assist with ensuring individuals' receive the correct nutrition according to likes and dislikes, dietary requirements such as diabetes, allergies and weight loss or gain. I aim to assist individuals when eating as required but at the same time ensuring that I do not de-skill them by taking over the task unnecessarily. Our residents' needs vary on a day to day basis, with a task that is beyond an individual's capability one day may be 'doable' the next.

Inspector of Education, Children's Services and Skills 2006/07 Great Britain. Office for Standards in Education, 2007-10-17

This publication brings together OFSTED inspection and regulation data covering the period from September 2006 to August 2007. With the establishment on 1 April 2007 of the Office for Standards in Education Children's Services and Skills, OFSTED's responsibilities for inspecting children's services changed substantially with OFSTED now regulating and inspecting childcare, children's social care and provision for learners of all ages. The first part of the report summarises the outcomes of routine inspections and regulatory visits across OFSTED's remit. The second part of the report examines three important themes in education and care: i) improved life chances of children and older learners from disadvantaged backgrounds; ii) the experience of children and young people where education and care develops awareness of personal, cultural and national identity; iii) the effectiveness of education and training for young people entering work. The report also refers to the national test results for 2007.

The Handbook of Health Behavior Change Angie L. Cradock, Kristina Henderson Lewis, Justin B. Moore, 2024-08-23

Now in its 6th edition, *The Handbook of Health Behavior Change* continues to serve as the premier practical textbook for students, researchers and health professionals in public health, health promotion, preventive and behavioral medicine, nursing, health communication, population health and the behavioral sciences. It presents a foundational review of key theories, methods and intervention strategies they will need to be both thoughtful and effective in promoting positive health behavior change. The book examines the complex challenges of improving health behavior in society, including the upstream systems, economic, environmental, social, cultural and policy factors at play, as well as the interpersonal and intrapersonal behaviors that lead to disparate health outcomes among individuals and populations. Integrated throughout are applied case studies and real world examples focusing on the importance of health equity considerations for health behavior change and how to apply an equity lens to conducting research, designing and implementing programs. The 6th edition has been fully updated, reorganized and revised to address the behaviors and health topics related to the leading causes of death and morbidity among adults and children in the United States. Using a multidisciplinary approach, *The Handbook of Health Behavior Change* prepares the next generation of health professionals to face future challenges in the health behavior sphere through its discussions on equity, theoretical advances, primary and secondary prevention and application of effective strategies for implementing interventions across levels of society. Provides the gold standard review of behavior change interventions. New additions highlight the most recent evidence on timely topics such as vaccine uptake, reproductive and sexual health, workplace safety, injury prevention and mental and behavioral health. Features authors with deep expertise in behavior change research, clinical applications and population health interventions. Focuses on practical learning objectives that relate to core public health competencies. Summarizes important concepts and information with new and updated illustrations, key points and discussion questions. Includes engaging case studies in every chapter. Qualified instructors have access to this edition's expanded Instructor Resources including learning activities, comprehensive PowerPoint slides and

additional resources to supplement students dynamic learning and interaction with the text
