The Color of Love Elizabeth Hordge-Freeman, 2015-10-30 The Color Of Love reveals the power of racial hierarchies to infiltrate our most intimate relationships Delving far deeper than previous sociologists have into the black Brazilian experience Elizabeth Hordge Freeman examines the relationship between racialization and the emotional life of a family Based on interviews and a sixteen month ethnography of ten working class Brazilian families this provocative work sheds light on how families simultaneously resist and reproduce racial hierarchies Examining race and gender Hordge Freeman illustrates the privileges of whiteness by revealing how those with blacker features often experience material and emotional hardships From parental ties to sibling interactions to extended family and romantic relationships the chapters chart new territory by revealing the connection between proximity to whiteness and the distribution of affection within families Hordge Freeman also explores how black Brazilian families particularly mothers rely on diverse strategies that reproduce negotiate and resist racism She frames efforts to modify racial features as sometimes reflecting internalized racism and at other times as responding to material and emotional considerations Contextualizing their strategies within broader narratives of the African diaspora she examines how Salvador s inhabitants perceive the history of the slave trade itself in a city that is referred to as the blackest in Brazil She argues that racial hierarchies may orchestrate family relationships in ways that reflect and reproduce racial inequality but black Brazilian families actively negotiate these hierarchies to assert their citizenship and humanity

Strategies for the Global Economic System for 2030 Elena G. Popkova, Artem I. Krivtsov, Aleksei V. Bogoviz, 2021-07-19 Against the background of continuing crises in the world s economy the question of what future awaits it in the third decade of the 21st century has become urgent According to the paradigm model of long waves the next global economic crisis is expected to transpire somewhere around 2030 This book defines the basic conditions for the development of the modern global economy analyzing future scenarios for its long term development and providing applied recommendations for the practical implementation of the optimal scenario The book first explores the conceptual vision of the future and the priorities for the strategic development of the global economic system until 2030 It then formulates the requirements for entrepreneurship to achieve the priorities of the strategic development of the global economic system including long term industry solutions for entrepreneurship and markets Third it outlines the guidelines for state regulation of the global economic system in the interest of achieving the priorities of its strategic development in the period up to 2030

Entrepreneurship in South America Léo-Paul Dana, Christian Keen, Veland Ramadani, 2022-06-22 This book reveals a variety of issues facing entrepreneurs SMEs and entrepreneurship development across South America The authors recognize that when it comes to entrepreneurship not one size fits all Therefore this book

has been designed to help business students understand the context of the enterprise It highlights how countries differ in their scope of entrepreneurship and how entrepreneurs are impacted by these differences Each chapter is dedicated to a respective country and describes the status quo challenges and prospects for entrepreneurship there Specifically the book helps students understand the nature of entrepreneurship in Argentina Bolivia Chile Colombia Ecuador French Guiana Guyana Paraguay Peru Surinam Uruguay and Venezuela Educators Guide to Free Social Studies Materials Patricia A. Horkheimer Suttles,1987 **Official Verbatim Report of the Parliamentary Debates** Zambia. National Assembly,2012-07-19 , **For God and Country** Peter C. Mentzel,2021-03-11 Religion and nationalism are both powerful and important markers of individual identity but the relationship between the two has been a source of considerable debate Much if not most of the early work done in Nationalism Studies has been based at least implicitly on the idea that religion as a genealogical carrier of identity was displaced with the advent of secular modernity which was caused by nationalism Or to put it another way national identity and its ideological manifestation nationalism filled the void left in people s self identification as religion retreated in the face of modernity Since at least the late 1990s this view has been increasingly challenged by scholars trying to account for the apparent persistence of religious identities Perhaps even more interestingly scholars of both religion and nationalism have noted that these two kinds of self identification while sometimes being tense as the earlier models explained are also frequently coexistent or even mutually supportive This collection of essays explores the current thinking about the relationship between religion and nationalism from a variety of perspectives using a number of different case studies What all these approaches have in common is their interest in complicating our understandings of nationalism as a primarily secular phenomenon by bringing religion back into the discussion United States Reports United States.
