Electoral Politics in Zimbabwe, Vol II Esther Mavengano, Sophia Chirongoma, 2023-08-08 Volume two of Electoral Politics in Zimbabwe The 2023 Election and Beyond argues that research into Zimbabwe's politics is multifaceted and topical particularly because for more than two decades now this Southern African state has been dogged by multiple problems including hyperinflation drought escalating poverty levels extremely high unemployment rates and political instabilities The volume's overall goal is to ignite intellectual discussions and practical action towards turning the political wheels that have been in place for decades The first segment examines the interface between gender and electoral politics in Zimbabwe The second part discusses the role of the media in Zimbabwe's electoral politics The third section reflects on the role of traditional leaders and religious discourses in Zimbabwe's electoral politics The book will be a key resource to colleges universities and organisations in Zimbabwe the Southern Africa region and even beyond

The World of Science Education Femi S. Otulaja, Meshach B. Ogunniyi, 2017-09-12 Each volume in the 7 volume series The World of Science Education reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel North Africa and the Middle East and Sub Saharan Africa The focus of this Handbook is on research in science education in mostly former British colonies in Sub Saharan Africa and the scholarship that most closely support this program The reviews of the research situate what has been accomplished within a given field in Sub Saharan Africa rather than an international context The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next

Disability and Sexuality in Zimbabwe Christine Peta, 2017-10-25 Disabled women represent one of the most marginalised minority groups in the world hence they are largely silent while their sexuality is ignored suppressed forbidden and buried underneath the carpet Until recently most of the Global Northern published literature on the subject of the sexuality of disabled women has predominantly been constructed from hearsay and second hand narratives in studies which draw from the perspectives of parents service providers and advocates without much consultation of the relevant women By facilitating the voice of disabled women in Zimbabwe and illuminating their experiences of sexuality this book hopes to shift the experiences of sexuality of disabled women from the periphery of society to the fore Disability and

Sexuality in Zimbabwe presents original research on an issue that is thus far not found in local research data. Whilst addressing the paucity of literature on the subject, the book informs policy and practice and enhances the existing body of knowledge by making recommendations towards the development of a disability and sexuality framework that is rooted in the African context. This book is of interest to students and scholars of African studies, disability studies, sociology, psychology, social work, nursing, education studies, geography, women's and gender studies, and interdisciplinary studies. Additional audiences include a wide range of health, social care, and educational professionals and practitioners, as well as donors, disabled people's organisations, charities, government departments, NGOs, supranational organisations, and policy makers. **The**

Southern African Development Community in Zimbabwe Rich Mashimbye, 2024-02-13. This book narrates the unravelling of Zimbabwe, a country that was once considered an inspiration on the continent of Africa in terms of socioeconomic development. Recognising that many factors contributed to the collapse of the nation and that this collapse was a process that occurred over a long period, it looks at historical events and processes like the colonisation of the country and dispossession of the indigenous people and the misuse of politically motivated violence and economic mismanagement that followed under Robert Mugabe as the pivotal moments that precipitated the subsequent fall of Zimbabwe. The book also examines the role that the regional intergovernmental organisation, the Southern African Development Community (SADC), played in trying to help Zimbabwe overcome its security, political, and economic challenges. **State Capacity, Economic**

Control, and Authoritarian Elections Merete Seeberg, 2018-03-09. Although the phenomenon of authoritarian elections has been a focal point for the literature on authoritarian institutions for more than a decade, our understanding of the effect of authoritarian elections is still limited. Combining evidence from cross-national studies with studies on selected cases, relying on recent field work, this book suggests a solution to the paradox of authoritarian elections. Rather than focusing on authoritarian elections as a uniform phenomenon, it focuses on the differing conditions under which authoritarian elections occur. It demonstrates that the capacities available to authoritarian rulers shape the effect of elections, and high levels of state capacity and control over the economy increase the probability that authoritarian multi-party elections will stabilize the regime. Where these capacities are limited, the regime is more likely to succumb in the face of elections. The findings imply that although multi-party competition and state strength may be important prerequisites for democracy, they can, under some circumstances, obstruct democratization by preventing the demise of dictatorships. This text will be of key interest to scholars, students, and practitioners of democratization and to those who study autocracy and electoral authoritarianism, as well as comparative politics more broadly. **Urban Inclusivity in Southern Africa** Hangwelani H.

Magidimisha-Chipungu, Lovemore Chipungu, 2021-09-28. This book's point of departure rests on the premises that dimensions of the mainstream inclusive city discourse fail to capture in detail vulnerable clusters of society, being women, children, and the aging, the minority clusters, i.e. the blind, the disabled, and migrants. In addition, it fails to recognize the increase of spatial

inequality driven by racial and class differences a factor that has seen an increase in community violence and protests The focus on spatial inequality has for a long time blind folded urban authorities to ignore exclusion arising out of the same environments created with a notion of creating inclusivity Hence this book collapses spatial walls as it seeks to uncover the true perspectives of inclusivity in cities beyond spatial dimensions but within social realms The depth of this book s enquiry rests on its critical investigation of Southern African cities through historical epochs of apartheid and colonialism in the region

Farm Labor Struggles in Zimbabwe Blair Rutherford,2016-12-19 In the early twenty first century white owned farms in Zimbabwe were subject to large scale occupations by black urban dwellers in an increasingly violent struggle between national electoral politics land reform and contestations over democracy Were the black occupiers being freed from racist bondage as cheap laborers by the state supported massive land redistribution or were they victims of state violence who had been denied access to their homes social services and jobs Blair Rutherford examines the unequal social and power relations shaping the lives livelihoods and struggles of some of the farm workers during this momentous period in Zimbabwean history His analysis is anchored in the time he spent on a horticultural farm just east of Harare the capital of Zimbabwe that was embroiled in the tumult of political violence associated with jamba the democratization movement Rutherford complicates this analysis by showing that there was far more in play than political oppression by a corrupt and authoritarian regime and a movement to rectify racial and colonial land imbalances as dominant narratives would have it Instead he reveals farm worker livelihoods access to land gendered violence and conflicting promises of rights and sovereignty played a more important role in the political economy of citizenship and labor than had been imagined

Handbook of Research on Present and Future Paradigms in Human Trafficking Essien, Essien D.,2022-05-20 Human trafficking is currently regarded as a contemporary form of slavery However despite many initiatives undertaken over the last two decades to tackle the problem there seems to be a disproportionate emphasis on the social phenomenon Trafficking in persons remains a little explored area in scholarship with many inconsistencies and ambiguities yet to be attended to Human trafficking is a multifaceted issue that requires a multidisciplinary approach that

must be studied and considered thoroughly and with heavy regard to the many layers of the issue The Handbook of Research on Present and Future Paradigms in Human Trafficking presents a comprehensible view of what constitutes the underpinning of human trafficking the means of combating it its moral implications and offers possible solutions toward curbing its excesses inconsistencies and ambiguities Covering a range of topics such as social change human rights and ethics this major reference work is ideal for researchers scholars practitioners government officials policymakers instructors academicians and students

Regime and Education in Zimbabwe Bekithemba Dube, Albert Mufanечиya, 2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy

Invasive Alien Species Thammineni Pullaiah, Michael R. Ielmini, 2021-04-21 Jedes Jahr breiten sich invasive gebietsfremde Arten in neue Ökosysteme aus Die von den Eindringlingen verursachten Auswirkungen können sich in kürzester Zeit bemerkbar machen und verheerend sein Das Thema der invasiven gebietsfremden Arten ist umfassend komplex und auf verschiedenen Ebenen von globaler Bedeutung Versucht wird es durch die Globalisierung der Weltwirtschaft und den zunehmenden Handel durch den die natürlichen Barrieren für den Transfer von Arten durchbrochen werden Invasive gebietsfremde Arten bedrohen die weltweite Nahrungsmittelversorgung die Qualität und Verfügbarkeit von Trinkwasser sowie die Stromproduktion und Versorgung Zusammen mit den zusätzlichen Risiken durch den globalen Klimawandel ist die weltweite Homogenisierung von Pflanzen Tieren und Mikroben ein

wesentlicher Faktor für den sich verschlechternden Gesundheitszustand der Ökosysteme und die nachlassenden Ökosystemdienstleistungen überall auf der Welt. Um dieser Entwicklung entgegenzuwirken besteht die dringende Notwendigkeit einer einheitlichen Ausrichtung von Regierungen, Kulturen und Programmen und einer besseren grenzüberschreitenden Koordination. Nur so lassen sich die vielfältigen Bedrohungen durch invasive gebietsfremde Arten für die Umwelt, die Wirtschaft und die Gesundheit von Pflanzen und Tieren sowie insbesondere die menschliche Gesundheit effektiv bekämpfen. Dieses vierbändige Werk ist das erste, das einen umfassenden Satz nützlicher Materialien zu den zentralen Themen bereitstellt, um die gesamte globale Bedrohung durch invasive gebietsfremde Arten sowie die vielfältigen Probleme in verschiedenen Teilen der Welt deutlich zu machen und es enthält Material, in dem potenziell replizierbare Lösungen zur Überwindung dieser Bedrohungen aufgezeigt werden. Das Werk betont die Bedrohung durch invasive gebietsfremde Arten auch im Sinne eines globalen Aufrufs zum Handeln. Invasive Arten kennen keine Grenzen. Daher hoffen wir, dass wir durch die Zusammenstellung von Material, das unterschiedliche wissenschaftliche und gesellschaftliche Standpunkte aus aller Welt berücksichtigt sowie durch die Vermittlung von Erkenntnissen und Beispielen zu einer Vielzahl damit zusammenhängender Themen, das globale Bewusstsein stärken und einheitliche nationale Reaktionen auf die Bedrohung durch invasive gebietsfremde Arten fördern können.

UNESCO science report UNESCO, 2015-11-09 There are fewer grounds today than in the past to deplore a North-South divide in research and innovation. This is one of the key findings of the UNESCO Science Report towards 2030. A large number of countries are now incorporating science, technology and innovation in their national development agenda in order to make their economies less reliant on raw materials and more rooted in knowledge. Most research and development (R&D) is taking place in high-income countries, but innovation of some kind is now occurring across the full spectrum of income levels according to the first survey of manufacturing companies in 65 countries conducted by the UNESCO Institute for Statistics and summarized in this report. For many lower-income countries, sustainable development has become an integral part of their national development plans for the next 10-20 years. Among higher-income countries, a firm commitment to sustainable development is often coupled with the desire to maintain competitiveness in global markets that are increasingly leaning towards green technologies. The quest for clean energy and greater energy efficiency now figures among the research priorities of numerous countries. Written by more than 50 experts who are each covering the country or region from which they hail, the UNESCO Science Report towards 2030 provides more country-level information than ever before. The trends and developments in science, technology and innovation, policy and governance between 2009 and mid-2015 described here provide essential baseline information on the

concerns and priorities of countries that could orient the implementation and drive the assessment of the 2030 Agenda for Sustainable Development in the years to come

Leading and Managing Open and Distance e-Learning (ODEL) Institutions in Africa Cuthbert Majoni, 2022-10-18 *Leading and Managing Open and Distance E Learning ODeL Institutions in Africa* focuses on e learning especially in developing countries in Africa The outbreak of COVID 19 has forced most educational institutions including conventional institutions in higher education to embrace e learning as a tool to ensure that education is not paralysed but continues to thrive However the major challenge has been shifting focus from the conventional face to face mode to the e learning mode This calls for a change of mindset and a review of practices to ensure success in implementing e learning This book has 12 chapters that explore the leadership theories and approaches that influence administrative practices in ODeL institutions as well as student support within library and information services the complexities of student affairs the inclusion of students with special needs the contemporary issues of innovation and industrialisation and effective marketing techniques for the survival and growth of tertiary institutions It is hoped that the recipients of this book can acquire the theoretical and practical knowledge relevant to the successful implementation of e learning

The Return of Food Tawodzera, Godfrey, Crush, Jonathan, 2016-06-14 The nadir of Zimbabwe s political and economic crisis in 2008 coincided with the implementation of a baseline household food security survey in Harare by AFSUN This survey found that households in low income urban areas in Zimbabwe s capital were far worse off in terms of all the food insecurity and poverty indicators than households in the other 10 Southern African cities surveyed by AFSUN The central question addressed in this report is whether food security in Zimbabwe s urban centres has improved AFSUN conducted a follow up survey in 2012 that allows for direct longitudinal comparisons of continuity and change The status of household food security in low income neighbourhoods in Harare was improved in 2012 relative to 2008 and yet persistently high rates of severe food insecurity demonstrate that the daily need to access adequate food continued to be a major challenge The key lesson for policymakers is that even in the context of overall economic improvement food insecurity remains endemic among the poorest segments of the urban population Households are already accustomed to drawing on resources outside of the formal economy and improvements in employment income have not reversed that trend These alternative livelihood strategies should therefore be considered as a normal part of urban life and supported with state resources that can improve access to food for the most marginalized groups

Presidents for Life in Sub-Saharan Africa Teresa Nogueira Pinto, 2025-11-13 Teresa Nogueira Pinto analyzes how Robert Mugabe and Paul Kagame developed narratives to legitimize and entrench their power in Rwanda and Zimbabwe From South America to Eastern Europe semi authoritarian leaders often deploy strategies of power legitimization rooted in historical legacies political institutions legal and constitutional frameworks economic conditions and shifting regional and international dynamics This framework is particularly pertinent in an era when authoritarianism is evolving and liberal democracy is facing a prolonged period of decline In *Presidents for Life in Sub Saharan Africa*

Unpuzzling Authoritarianism in Zimbabwe and Rwanda Pinto examines how Robert Mugabe and Paul Kagame used these strategies in their personalized semi authoritarian and resilient regimes in Sub Saharan Africa as well as how their claims to legitimacy were challenged by opponents and civil society She emphasizes that these strategies are not developed in isolation but have instead emerged from leaders continuous interactions and negotiations in legal political and economic spheres Recognizing that the legitimization of power operates across different dimensions this book adopts a multidimensional approach to show how authoritarian leadership is constructed and challenged Through comparison of these two African leaders this book unveils the tactics used by authoritarian leaders to consolidate power and navigate threats to their authority

Marginality, Migration and Education Winniefridah Matsa, 2020-12-21 This book provides a missing link between marginality migration and education in Zimbabwe focusing on the educational experiences of migrants children in an effort to influence government policies concerning migrant parents and their left behind children While there is a large body of knowledge on the education of children of immigrants in destination countries this book aims to fill in the gap by addressing the children who do not migrate with their parents Through this unique approach the book examines the education statuses of these left behind children offering insights into their educational challenges rights and inequities to better inform policy decisions to meet the 2030 education agenda for action established by the United Nations in 2015 The book will of interest and use to governments NGOs teachers and local communities in Africa as a resource to better understand the situation of migrants left behind children as a category of vulnerable children in difficult circumstances
