Merete Seeberg

Zimsec June 2013 Economics Paper:

Zimbabwe: The Link Between Politics and the Economy Godfrey Kanyenze, 2022-03-31 In this accessible and authoritative book Godfrey Kanyenze provides a comprehensive and far reaching analysis of the socio economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence Kanyenze describes the various phases of the socio economic development starting with 1980 when the people of Zimbabwe saw their hard won independence and new democracy as a promise for a better life for all Kanyenze highlights how by dismantling all barriers of economic and legal restraint and that despite being necessary The land reform programme put the political and financial interests of the elite before those of the people which continues to this day Kanyenze reveals the governmental attacks on civil society and notes how economic policy was not even part of an authoritarian bargain an implicit arrangement between ruling elites and citizens whereby citizens relinquish political freedom in exchange for public goods And he concludes this analysis with a current update of Zimbabwe today where citizens have nothing neither political freedom nor public goods This impressive and gripping account of an authoritarian capitalist system and a country in decline is a must read for students researchers policymakers and those who want to better understand how politics and the economy interests conflicts and power work together

Extractive Industry Indigenisation in Zimbabwe Kennedy Manduna, 2025-09-25 This book explains how and why Zimbabwe s extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe s extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe s government following the controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development

Marginality, Migration and Education

Winniefridah Matsa,2020-12-21 This book provides a missing link between marginality migration and education in Zimbabwe focusing on the educational experiences of migrants children in an effort to influence government policies concerning migrant parents and their left behind children While there is a large body of knowledge on the education of children of immigrants in destination countries this book aims to fill in the gap by addressing the children who do not migrate with their parents Through this unique approach the book examines the education statuses of these left behind children offering insights into their educational challenges rights and inequities to better inform policy decisions to meet the 2030 education agenda for action established by the United Nations in 2015 The book will of interest and use to governments NGOs teachers and local communities in Africa as a resource to better understand the situation of migrants left behind children as a category of vulnerable children in difficult circumstances State Capacity, Economic Control, and Authoritarian Elections

Merete Seeberg,2018-03-09 Although the phenomenon of authoritarian elections has been a focal point for the literature on authoritarian institutions for more than a decade our understanding of the effect of authoritarian elections is still limited Combining evidence from cross national studies with studies on selected cases relying on recent field work this book suggests a solution to the paradox of authoritarian elections Rather than focusing on authoritarian elections as a uniform phenomenon it focuses on the differing conditions under which authoritarian elections occur It demonstrates that the capacities available to authoritarian rulers shape the effect of elections and high levels of state capacity and control over the economy increase the probability that authoritarian multi party elections will stabilize the regime Where these capacities are limited the regime is more likely to succumb in the face of elections The findings imply that although multi party competition and state strength may be important prerequisites for democracy they can under some circumstances obstruct democratization by preventing the demise of dictatorships This text will be of key interest to scholars students and practitioners of democratization and to those who study autocracy and electoral authoritarianism as well as comparative politics more broadly **Transitional Justice and Socio-Economic Rights in Zimbabwe** Prosper Maguchu,2019-07-26

This book addresses the issue of corruption as a socio economic rights concern at a national level Zimbabwe s widespread corruption inhibited its development in all aspects It weakened institutions especially those called upon to arbitrate political and economic contests leading to potential human rights violations However Zimbabwe saw a change of government in November 2017 Due to this there seemed to be an opening to work towards reform in relation to the anti corruption architecture Specifically the new era provides an opportunity to review how accountability mechanisms including but not limited to amnesties truth commissions institutional reforms and prosecutions can address corruption as a socio economic rights violation As the new government still tries to address competing priorities many moving parts and various matrixes this volume in the International Criminal Justice Series provides a timely frame for revisiting the debate and developing the strategic thinking regarding transitional justice options in Zimbabwe It will be of great interest to practitioners policy makers

scholars and students in the fields of anti corruption socio economic and human rights and transitional justice Prosper Maguchu is Visiting Assistant Professor at the Centre for the Politics of Transnational Law of the Vrije Universiteit Amsterdam The Netherlands

Election Violence in Zimbabwe Vimbai Chaumba Kwashirai, 2023-03-02 The ramifications of election violence in Zimbabwe are huge and ongoing and the loss of lives in the quest for democratic rights might be regarded as the foremost tragedy of post colonial Zimbabwe In this book Vimbai Chaumba Kwashirai examines the prevalence of electoral violence in Zimbabwe from the early 1980s to the present day With a range of rich examples Kwashirai offers a nuanced analysis of the overt and covert forms of violence that have pervaded the country s general elections While remaining attentive to the specifics of the Zimbabwean political landscape Kwashirai addresses broader debates in African politics and shows how insidious violence ethnic tensions and the weakness of opposition parties serve to undermine democracy across Africa Adopting an interdisciplinary approach he explores the various ways in which violence can be understood and crucially how it might be prevented

State-Business Relations and Economic Transformation in South Africa and Zimbabwe Sinan Baran, 2023-06-12 In State Business Relations and Economic Transformation in South Africa and Zimbabwe Unfinished Transformation Sinan Baran examines state business relations SBRs in semi peripheral South Africa and peripheral Zimbabwe after each country s transition to majority rule to address why SBRs are likely to either consolidate or fracture in post transition communities In both countries the majority governments faced unresolved post transition divisions relating to race inequality and underdevelopment Baran analyzes the liberalisation and indigenisation policy choices intended to address these areas that are impacting the mining industries in South Africa and Zimbabwe as case studies Using comparative analysis and a Modern World Systems lens he argues that semi peripheral countries are less susceptible to pressures from domestic and external powers than peripheral countries during periods of economic transformation He further argues that China s significant political and economic presence in a peripheral country like Zimbabwe has more effect on SBRs than in a semi peripheral country like South Africa

From Antagonism to Re-engagement Richard Kamidza, 2017-07-19 The book interrogates the European Union EU Zimbabwe Economic Partnership Agreement EPA negotiations covering trade in goods trade related rules and development cooperation The negotiations coincided with EUs motives as the dominant development partner and Zimbabwes state stakeholder fault lines creating dilemmas in the pursuit of a fair EPA outcome As a result the economically weak Zimbabwe signed and ratified an asymmetrical interim EPA iEPA with an economically powerful EU in 2009 and 2012 respectively Meanwhile direct bilateral re engagement which eluded the Government of National Unity GNU became real following ZANU PF landslide victory on 31 July 2013 that sufficiently altered the power balance to trigger the process between the former nemesis in support of iEPA domestication and social and economic development ZANU PF government stopped blaming the EU and other western nations for the countrys continued economic underperformance signaling a softening approach on its part Similarly the EU

and its member states softened its perception on ZANU PF leadership leading to resumption and intensification of re engagement despite failure to implement the Global Political Agreement related constitutional and democratic reforms agreed by GNU This re engagement was firmly endorsed when the EU and Zimbabwe signed an agreement in July 2015 to normalise bilateral relations and start cooperation

Grid-locked African Economic Sovereignty Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06

The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions
