Zimsec Syllabus 2015 2016:

Handbook of Research on Promoting Global Citizenship Education Keengwe, Jared, 2022-02-18 A global citizen is an individual who believes in a public responsibility for their local community to grow and interconnect amongst the world's diverse people and things. Global citizenship education is a fast-moving process that continues to intertwine communities all over the world. As we move toward a more global world, the improvement in education, health, poverty rates, and standard of living should come with it. This global world must be a place where people are aware of what is going on and can have an impact as well. The Handbook of Research on Promoting Global Citizenship Education explores various ways to empower educators to design and implement a curriculum that incorporates global citizen education. Covering a range of topics such as global issues and academic migration, this major reference work is ideal for academicians, industry professionals, policymakers, researchers, scholars, instructors, and students.

Teaching African History in Schools, 2020-11-04
Emerging from the pioneering work of the African Association for History Education (AAHE), *Teaching African History in Schools* offers an original Africa-centred contribution to international history education research. Edited by AAHE's founders and directors, the volume thus addresses a notable gap in this field by showcasing otherwise marginalised scholarship from and about Africa. *Teaching African History in Schools* constitutes a unique collection of nine empirical studies interrogating curriculum and textbook contents and teachers and learners' voices and experiences as they relate to teaching and learning African history across the continent and beyond. Case studies include South Africa, Kenya, Rwanda, Zimbabwe, Malawi, Cameroon, and Tanzania, as well as the UK and Canada. Contributors are Denise Bantrot, Carol Bertram, Jean Leonard Buhigiro, Annie Fatsereni Chiponda, Raymond Nkweni, Fru Marshall, Tamuka Maposa, Abdul Mohamud, Sabrina Moisan, Reville Nussey, Nancy Rushohora, Johan Wassermann, and Robin Whitburn.

Why History Education? Joanna Wojdon, 2023-03-15 The 2022 issue of JHEC is focused on the topic Why History Education, addressing the sense of history education in contemporary world where it has to assert itself in the field of tension of power, economy, and society and to engage in the dialogue with the growing field of public history. Perspectives from Austria, Germany, Israel, Poland, South Africa, Ukraine, and Zimbabwe are included. The highlight of the Varia section is the article on Plannungsmatrix where Alois Ecker presents his innovative tool for designing teaching modules that skillfully combine first and second order historical concepts in the course of dialogical interaction between educator and students.
