**History as a Theological Issue** Nico T. Bakker,2019-05-21 These days no one believes in the redemptive essence of history Lyotard The individual of today lives without culture history social engagement and moral norms Lasch It is in this intellectual climate that History as a Theological Issue has been written Nico Bakker analyses seminal conceptions of history from the past and from our day and compares them with the newest notions of history in biblical and systematic theology In so doing he engages in conversation with thinkers from Augustine to Popper along with many others His thinking is informed in particular by the work of Barth Pannenberg and the Dutch reformed theologians Miskotte and Breukelman Of central significance is his ability to apply basic theological notions to culture In this way he connects the present day crisis of culture with the permanent alienation of church and Christianity from its own origins in the scriptures Now that since the 1950s a new awareness structure is beginning to emerge Gebser the author considers that theology is in need of a radical rethink History as a Theological Issue is written primarily for theologians historians biblical critics and philosophers of religion and is recommended reading for all who are seriously interested in the present day crisis of culture and in the widespread alienation from the Bible Church and Christianity     *Handbook of Autobiography / Autofiction* Martina
