Narrative and Critical History of America: Spanish explorations and settlements in America from the fifteenth to the seventeenth century Justin Winsor,1886 *World Building in Spanish and English Spoken Narratives* Jane Lugea,2016-06-16 Text World Theory is a powerful framework for discourse analysis that thus far has only been used in monolingual Anglophone stylistic analyses This work adapts Text World Theory for the analysis of Spanish discourse and in doing so suggests some improvements to the way in which it deals with discourse in particular with direct speech and conditional expressions Furthermore it applies Text World Theory in a novel way searching not for style in language but for the style of a language Focusing principally on deixis and modality the author examines whether Spanish speakers and English speakers construct the narrative text world in any patterned ways To do so the frog story methodology is employed eliciting spoken narratives from native adult speakers of both languages by means of a children's picture book These narratives are transcribed and subjected to a qualitative text world analysis which is supported with a quantitative corpus analysis The results reveal contrasts in Spanish and English speakers use of modality and deixis in building the same narrative text world and are relevant to scholars working in language typology cross cultural pragmatics and translation studies These novel applications of the Text World Theory push the boundaries of stylistics in new directions broadening the focus from monolingual texts to languages at large Accelerating the Literacy Performance of Bilingual Students ,

Narrative and Critical History of America: Spanish Explorations and Settlements in America from the Fifteenth to the Seventeenth Century Various Authors, 2020-09-28

BEYOND his birth of poor and respectable parents we know nothing positively about the earliest years of Columbus His father was probably a wool comber The boy had the ordinary schooling of his time and a touch of university life during a few months passed at Pavia then at fourteen he chose to become a sailor A seaman's career in those days implied adventures more or less of a piratical kind There are intimations however that in the intervals of this exciting life he followed the more humanizing occupation of selling books in Genoa and perhaps got some employment in the making of charts for he had a deft hand at design We know his brother Bartholomew was earning his living in this way when Columbus joined him in Lisbon in 1470 Previous to this there seems to be some degree of certainty in connecting him with voyages made by a celebrated admiral of his time bearing the same family name Colombo he is also said to have joined the naval expedition of John of Anjou against Naples in 1459 Again he may have been the companion of another notorious corsair a nephew of the one already mentioned as is sometimes maintained but this sea rover's proper name seems to have been more likely Caseneuve though he was sometimes called Coulon or Colon Columbus spent the years 1470-1484 in Portugal It was a time when the air was filled with tales of discovery The captains of Prince Henry of Portugal had been gradually pushing their ships down the African coast and in some of these voyages Columbus was a participant To one of his navigators Prince Henry had given the governorship of the Island of Porto Santo of the Madeira group To the daughter of this man Perestrelo Columbus was married and with his widow Columbus lived and derived what advantage he could from the papers and charts of the old navigator There was a tie between his own and his wife's family in the fact that Perestrelo was an Italian and seems to have been of good family but to have left little or no inheritance for his daughter beyond some property in Porto Santo which Columbus went to enjoy On this island Columbus son Diego was born in 1474
