Tourism and Innovation C. Michael Hall, Allan M. Williams, 2019-11-25 This ground breaking volume on the relationships between tourism and innovation provides an overview of relevant innovation theories and related literatures on entrepreneurship productivity regional development and competitiveness and their significance to contemporary tourism practices Innovation is a key concept in business and entrepreneurial studies and the broader social sciences Yet despite its policy and academic importance historically little attention has been given to the role of innovation in tourism and the corresponding contribution of tourism related human mobility to regional firm and product innovation This book emphasises that innovation in tourism is much more than a series of technological innovations as important as they are and instead needs to be understood in an economic social and political context with particular stress being placed on the extent to which innovations are shaped by the framework of governance and regulation as well as by institutional factors and activities of individual actors and entrepreneurs It is structured so as to introduce the reader to the overall significance of innovation at various levels and the role that innovation plays in firm and place competition Supported with case studies throughout this book is essential reading for all tourism students

International Business Strategy and Entrepreneurship: An Information Technology Perspective Ordóñez de Pablos, Patricia, 2013-11-30 There is a high demand in our society to adopt emerging technologies in all aspects of business and economic activity As traditional business practices and economic activity are occurring in a global context new areas of economic development are being recognized as the key enablers of wealth and income production International Business Strategy and Entrepreneurship An Information Technology Perspective discusses innovative solutions to research problems and high performance systems while emphasizing the role of IT and management for sustainable development This book brings together academics researchers entrepreneurs policy makers and government officers aiming to contribute to the debate of technology related to international business and strategic management

Digital Transformation of Business Everlin Piccinini, 2016-08-26 History of corporations is replete with stories of fundamental organizational change in the face of breakthroughs in technology and significant economic changes Yet pervasive digitalization i e a socio technical process whereby digital technology capabilities are embedded into everyday artifacts and life altering everyday experiences and interactions brings about substantial changes in environmental conditions not seen before The fast paced unbounded ongoing and potentially disruptive nature of change in today s digitized world is fueled by the generativity of digital innovation forcing incumbents across industries to transform and adapt This cumulative dissertation presents five studies that provide a comprehensive understanding on the emerging phenomenon of digital transformation of business With the help of primary data collected from more than 40 industry experts as well as secondary data it aimed at explaining through a configurational perspective how in certain contextual conditions a combination of particular mechanisms may lead automotive manufacturing organizations to embark on a sustainable digital

transformation of their business Overall the findings derive a holistic view of the investigated phenomenon indicating that it stems from socio technical developments in the macro meso and micro levels of business fostering incumbents to build new mechanisms that activate digital transformation capabilities to rapidly respond to such socio technical developments fundamentally altering their traditional business logics Nevertheless research on the phenomenon of digital transformation is in its infancy in both information systems and organizational science research therefore more in depth empirical accounts are still needed
