Norman Long,Bryan R. Roberts,2014-11-06 This book brings together the research into regional development and social change carried out in highland Peru by a team of British and Latin American social anthropologists and sociologists The area studied the Mantaro Valley of central Peru is one of the most densely populated and economically differentiated of highland zones it is also notable for its community based forms of cooperation and its high level of peasant political activity The book presents a series of case studies that examine cooperative forms of organization in relation to developments in the regional economy and to changes in national policy The analysis attempts to avoid interpreting local processes merely as responses to externally initiated change It stresses instead the need to consider the interplay of local and national forces because local groups and processes themselves affect the pattern of regional and national development The case studies cover a range of political and economic topics from peasant movements to the achievements and shortcomings of government sponsored agricultural and manufacturing cooperatives The concluding chapter by the editors explores the theoretical implications of these studies Military Government and the Movement Toward Democracy in South America

Howard Handelman,Thomas Griffin Sanders,1981 Sophisticated investigations of governmental transition in Brazil Chile Uruguay Peru and Ecuador Discusses such issues as the undercurrents of popular discontent and the recent progress toward increased civilian political participation *The Return of Epidemics*

Marcos Cueto,2017-07-05 Historians have long recognized epidemics to be a significant though sometimes hidden factor in the fortunes of societies and civilizations The study of epidemics heightens our understanding of relationships between economic systems and living conditions It illuminates the ideologies and religious beliefs of the affected community and illustrates the efforts and inadequacies of public health systems This investigation of the history of epidemics in various parts of Peru during the twentieth century opens up a new field for Latin American studies to include health and disease These are important areas of the past that enable us to understand better the living conditions of people the role of state authority and the dynamics of social movement Marcos Cueto examines five series of epidemics the bubonic plague of 1903 1930 the fever epidemic of 1919 1922 the typhus and small pox epidemics in the Andes attempts to control and eradicate malaria and the cholera epidemics of 1991 In each case he studies the biological and ecological factors that caused the outbreak and the techniques and policies applied to fight it together with the response of the affected society The experience of epidemics in Peru has been cyclical Poverty breeds disease which in turn results in further poverty One of the aims of this study is to highlight areas of success and failure in the fight against epidemics in the hope that such awareness may help break this vicious circle **Colonial Divide in Peruvian Narrative**

Misha Kokotovic,2005-04-14 Explores debates over Peru s modernisation and cultural identity in post 1940 literature exploring how writers and others

confronted challenges of language style and narrative form in their attempt to write across their nation's cultural divisions This book examines the relationship between Peru's white elite and its indigenous majority

**Rules of Law and Laws of Ruling** Franz von Benda-Beckmann, Keebet von Benda-Beckmann, 2016-04-08 Offering an anthropological perspective this volume explores the changing relations between law and governance examining how changes in the structure of governance affect the relative social significance of law within situations of legal pluralism The authors argue that there has been a re regulation rather than a de regulation propagated by a plurality of regulative authorities and this re regulation is accompanied by an increasing ideological dominance of rights talk and juridification of conflict Drawing on insights into such processes this volume explores the extent to which law is used both as a constitutive legitimation of governance and as the medium through which governance processes take place Highlighting some of the paradoxes and the unintended consequences of these regulating processes and the ensuing dynamics Rules of Law and Laws of Ruling will be a valuable resource for researchers and students working in the areas of legal anthropology and governance

**Contesting Citizenship in Latin America** Deborah J. Yashar, 2005-03-07 Indigenous people in Latin America have mobilized in unprecedented ways demanding recognition equal protection and subnational autonomy These are remarkable developments in a region where ethnic cleavages were once universally described as weak Recently however indigenous activists and elected officials have increasingly shaped national political deliberations Deborah Yashar explains the contemporary and uneven emergence of Latin American indigenous movements addressing both why indigenous identities have become politically salient in the contemporary period and why they have translated into significant political organizations in some places and not others She argues that ethnic politics can best be explained through a comparative historical approach that analyzes three factors changing citizenship regimes social networks and political associational space Her argument provides insight into the fragility and unevenness of Latin America's third wave democracies and has broader implications for the ways in which we theorize the relationship between citizenship states identity and social action

**The New Bourgeoisie and the Limits of Dependency** David G. Becker, 2014-07-14 The author clarifies the mutually constructive relationship between transnational and the modernizing Peruvian state showing how the state maintains this relationship while simultaneously nurturing the new class Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Landing Votes* N. Lapp, 2004-05-13 *Landing Votes* explores the conditions under which democratic Latin American governments address persistent political and economic inequities The book points out a surprising coincidence nearly every extension of suffrage to the rural poor occurred at the same time as land reform Politicians did not merely react to peasants demands rather they sought political power by extending the right to vote while redistributing land The book concludes that party institutionalization enhanced the prospects for reforms by holding politicians accountable More significant reforms occurred which benefited more of the rural poor where institutionalized parties competed for their votes

**Vicos and Beyond** Tom Greaves, Ralph Bolton, Florencia Zapata, 2010-10-16 In 1952 Professor Allan Holmberg arranged for Cornell University to lease the Hacienda Vicos an agricultural estate in the central Peruvian highlands on which some 1800 Quechua speaking highland peasants resided Between 1952 and 1957 Holmberg with colleagues and students initiated a set of social economic and agrarian changes and nurtured mechanisms for community based management of the estate by the resident peasants By the end of a second lease in 1962 sufficient political pressure had been brought to bear on a reluctant national government to force the sale of Vicos to its people Holmberg s twin goals for the Vicos Project were to bring about community possession of their land base and to study the process as it unfolded advancing anthropological understanding of cultural change To describe the process of doing both he invented the term participant intervention Despite the large corpus of existing Vicos publications this book contains much information that here reaches print for the first time The chapter authors do not entirely agree on various key points regarding the nature of the Vicos Project the intentions of project personnel and community actors and what interpretive framework is most valid in part these disagreements reflect the relevance and importance of the Vicos Project to contemporary applied anthropologists and the contrasting ways in which any historical event can be explained Some chapters contrast Vicos with other projects in the southern Andean highlands others examine new developments at Vicos itself The conclusion suggests how those changes should be understood within Andean anthropology and within anthropology more generally
