 Based on a conference held at the request of the U S Department of Education it addresses three questions What progress
 has been made in advancing the education of minority and disadvantaged students since the historic Brown v Board of
 Education decision nearly 50 years ago What does research say about the reasons of successes and failures What are some of

the strategies and practices that hold the promise of producing continued improvements The volume draws on the conclusions of a number of important recent NRC reports including *How People Learn Preventing Reading Difficulties in Young Children* *Eager to Learn* and *From Neurons to Neighborhoods* among others It includes an overview of the conference presentations and discussions the perspectives of the two co moderators and a set of background papers on more detailed issues
