Anthology of the Biblical Revolution Evolution Series Michael Stansfield, 2020-02-13 As primitive civilization developed society has established cornerstones in our thought and reasoning Things we are told repeatedly as fact from birth and are thus believed instinctively Many of these cornerstones now date back many millennia such as the Bible The BER Series takes a candid look into the Bible to explore how the theological beliefs within Institutional Religion have affected society in diabolical ways These books also challenge the church's theological cornerstones to prove that they deviate from the Bible and truly have an obscured understanding of the Divine Thus the goal is to bring an overdue debate to organized religion The hope is to remove the barriers that deny humanity the evolution of our species No topic is out of bounds A person could listen to ten lifetimes of sermons and never get even a fraction of the candor of these books Love them or hate them you will be unable to put them down and you will never see the World or the Divine the same way again

natural English The words of Jesus are in red letter **Making Transcendents** Robert Ford Campany, 2009-02-18

Honorable Mention Joseph Levenson Prize pre 1900 category Association for Asian Studies By the middle of the third century
B C E in China there were individuals who sought to become transcendents xian deathless godlike beings endowed with
supernormal powers This quest for transcendence became a major form of religious expression and helped lay the foundation
on which the first Daoist religion was built Both xian and those who aspired to this exalted status in the centuries leading up
to 350 C E have traditionally been portrayed as secretive and hermit like figures This groundbreaking study offers a very
different view of xian seekers in late classical and early medieval China It suggests that transcendence did not involve a
withdrawal from society but rather should be seen as a religious role situated among other social roles and conceived in
contrast to them Robert Campany argues that the much discussed secrecy surrounding ascetic disciplines was actually one
important way in which practitioners presented themselves to others He contends moreover that many adepts were not
socially isolated at all but were much sought after for their power to heal the sick divine the future and narrate their exotic
experiences The book moves from a description of the roles of xian and xian seekers to an account of how individuals filled
these roles whether by their own agency or by others or often by both Campany summarizes the repertoire of features that

constituted xian roles and presents a detailed example of what analyses of those cultural repertoires look like He charts the functions of a basic dialectic in the self presentations of adepts and examines their narratives and relations with others including family members and officials Finally he looks at hagiographies as attempts to persuade readers as to the identities and reputations of past individuals His interpretation of these stories allows us to see how reputations were shaped and even co opted sometimes quite surprisingly into the ranks of xian Making Transcendents provides a nuanced discussion that draws on a sophisticated grasp of diverse theoretical sources while being thoroughly grounded in traditional Chinese hagiographical historiographical and scriptural texts The picture it presents of the quest for transcendence as a social phenomenon in early medieval China is original and provocative as is the paradigm it offers for understanding the roles of holy persons in other societies

An Introduction to the Bible Robert Kugler, Patrick Hartin, 2009-07-08 Many current Bible intro volumes focus more on theories about the biblical text than on the text itself They lack the simplicity that has become increasingly crucial as basic biblical literacy has declined Robert Kugler and Patrick Hartin seek to remedy that problem by turning readers back to the text at hand Their Introduction to the Bible surveys the content of all the biblical books section by section focusing on the Bible s theological themes
