Strippers Guide Maryland:

Design Manual, 1987 *Cartoonists, Works, and Characters in the United States through 2005* John Lent, 2006-04-30

This penultimate work in John Lent's series of bibliographies on comic art gathers together an astounding array of citations on American cartoonists and their work. Author John Lent has used all manner of methods to gather the citations: searching library and online databases, contacting scholars and other professionals attending conferences and festivals, and scanning hundreds of periodicals. He has gone to great length to categorize the citations in an easy-to-use scholarly fashion, and in the process has helped to establish the field of comic art as an important part of social science and humanities research. The ten volumes in this series covering all regions of the world constitute the largest printed bibliography of comic art in the world and serve as the beacon guiding the burgeoning fields of animation, comics, and cartooning. They are the definitive works on comic art research and are exhaustive in their inclusiveness, covering all types of publications: academic, trade, popular, fan, etc. from all over the world. Also included in these books are citations to systematically researched academic exercises, as well as more ephemeral sources such as fanzines, press articles, and fugitive materials, conference papers, unpublished documents, etc., attesting to Lent's belief that all pieces of information are vital in a new field of study such as comic art. **Strip Show**

Katherine Liepe-Levinson, 2003-09-01 This book offers an account of an unprecedented North American study of contemporary female and male strip shows. It particularly focuses on the contradictory sex roles, cultural positions, and performance practices of straight strip shows during their second heyday in the early 1990s. Katherine Liepe-Levinson's research took her to over seventy different strip bars, clubs, theatres, and sex emporiums ranging from elaborate lap dancing and couch dancing gentlemen's clubs in New York, Houston, and San Francisco to Peoria's onetime duplex cabaret where women strip for men downstairs and men for women upstairs to the nightclubs of Montreal where female and male performers displayed the Full Monty. Liepe-Levinson's intriguing comprehensive study concentrates on the cultural and theatrical elements of the strip shows themselves, including the geographic locations and interior designs of the clubs, the choreography and costumes of the dancers, and the all-important participation of the audience. She draws upon a variety of methodologies, as well as interviews with performers, to explore how the strip show's cultural and theatrical aspects simultaneously uphold and break traditional sex roles. Her findings readily complicate several of the most prominent and prevalent theories about sexual representation, gender, and desire. Guide to Cleaner Technologies, 1994 11 Points
