Strong Interest Inventory® Profile

BASIC INTEREST SCALES

The Basic Interest Scales represent specific interest areas that often pertain to work activities, projects, career work, and leisure activities that are generally motivating and rewarding. As with the General Occupational Themes, your interest levels (Very Little, Little, Moderate, High, Very High) were determined by comparing your scores against the average scores for your gender.

As you review your results in the charts below, note your top interest areas and your areas of least interest, and think about how they relate to your work, educational, and leisure activities. Take time to consider any top interest areas that are not represented in the chart below. You may be able to incorporate them into your plans.

Strong Interest Inventory Lenore W. Harmon, Diane Weyer DeWitt, 1994 **Handbook of Psychological Assessment** Gerald Goldstein, Michel Hersen, 2000-02-16 The field of psychological assessment has been undergoing rapid change The second edition of this Handbook published in 1990 appeared at the beginning of a decade marked by extensive advances in assessment in essentially all of its specialized areas There are many new tests new applications of established tests and new test systems Major revisions have appeared of established tests notably the Wechsler intelligence scales The time seemed right for a third edition since even over the relatively brief period of ten years many tests described in the second edition have been replaced and are no longer commonly used Furthermore much new research in such areas as neuropsychology cognitive science and psychopathology have made major impacts on how many tests and other assessment procedures are used and interpreted This third edition represents an effort to give the reader an overview of the many new developments in assessment while still maintaining material on basic psychometric concepts in order for it to continue to serve as a comprehensive handbook for the student and professional *Comprehensive Handbook of Psychological Assessment, Volume 4* Jay C. Thomas, 2003-09-18 In one volume the leading researchers in industrial organizational assessment interpret the range of issues related to industrial organizational tests including test development and psychometrics clinical applications ethical and legal concerns use with diverse populations computerization and the latest research Clinicians and researchers who use these instruments will find this volume invaluable as it contains the most comprehensive and up to date information available on this important aspect of practice **Using Test Data in Clinical Practice** Kathryn C MacCluskie, Elizabeth Reynolds Welfel, Sarah M. Toman, 2002 Material presented in many testing textbooks is appropriately broad and comprehensive but the effect for students new to testing is difficulty in then translating the extensive information into the practical skills of administering scoring and interpreting tests to help inform the treatment process Few resources exist to help students and mental health clinicians with the daunting task of learning how to synthesize test data from numerous instruments into a meaningful treatment plan and strategy for a client This book was written to address that need It provides readers with clear and detailed step by step procedures for using the WAIS III MMPI 2 MMPI A Kuder Occupational Interest Survey and the Strong Interest Inventory It features case examples and practice opportunities in test usage detailed discussion of approaches to client feedback and report writing and a review of ethical and legal considerations in using tests in clinical settings It takes readers through a systematic explanation of how to understand and integrate data from multiple sources to maximize the information gleaned from the tests It also emphasizes using test data to maximize helpfulness to the client and how to interpret test data to clients in language that is understandable *Vocational Interests in the Workplace* Christopher Nye, James Rounds, 2019-05-29 Vocational Interests in the Workplace is an essential new work tying together past literature with contemporary research to present the most

comprehensive coverage on vocational interests to date With increasing recognition of the importance of vocational interests and their relevance to the workplace this book emphasizes the strong links between vocational interests and work behavior It proposes new models and approaches that facilitate thorough exploration of the implications of this relationship between interests and practice The authors drawing on knowledge and experience from a range of professional backgrounds cover essential topics including interest measurement personnel selection motivation and performance expertise meaningful work effects of a global business environment diversity and the ongoing development of interests through adulthood to retirement Endorsed by the Society for Industrial and Organizational Psychology board this book is a valuable resource for researchers professionals and educators in the fields of human resources organizational behaviour and industrial or organizational psychology

Testing and Assessment in Counseling Practice C. Edward Watkins, Jr., Vicki L. Campbell, 2012-12-06 The primary purpose of this revision remains identical to that of the first edition to show how key personality cognitive behavioral and vocational tests assessment procedures can be used by counselors in their work with clients Too often assessment books only provide the reader with information about tests and assessment procedures They do not however take the next step showing readers how these tests assessment procedures can be used and integrated into the actual work of counseling This revision is designed to fill that void Chapter authors all of whom are experts in their respective topic areas share the theoretical and research backgrounds about a particular test assessment procedure and then provide a case example or examples to show how assessment data can be meaningfully incorporated into the counseling process
