Kim,2016-01-29 South Korea provides an intellectual challenge in the fields of social movements and democracy in that intense mobilization and the strong influence of social movements have accompanied steady democratization for more than two decades despite major theories having predicted otherwise This book examines how social movements in previously authoritarian contexts evolve after democratic transition using South Korea as a case study It explores how democratic change influences the form of social movements and how social movements affect the pace and direction of democracy in turn It explains how South Korean social movements were able to attain strong political influence by focusing on four causal factors the configuration of major political actors during the transition period the relational dynamics among social movement groups the relationship between social movements and institutionalized political actors and the impact of transnational forces in the post transition period Unlike previous scholarship the book takes a historical actor centered and process oriented approach that closely follows the interactions among contending actors through event sequences rather than being driven by abstract theoretical frameworks In doing so it analyses uses a broad range of evidence including police records untapped activist documents presidential memoirs newspaper accounts and original data sets Shedding light on the complex political reality that gave rise to a contentious civil society in South Korea after democratization this book also illuminates the institutional conditions that can help promote domestic peace and stability Therefore it will be of great use to students and scholars of Korean Studies Korean politics and social movements as well as policy makers *Rights, Emergencies and Judicial Review* Imtiaz Omar,2023-07-03 This book makes a significant contribution to the understanding of issues of comparative constitutionalism in emergent politics Recurrent states of emergency in Malaysia Sri Lanka and Bangladesh provide the background for a comparative examination of constitutional emergency powers individual rights and judicial review This work examines the extent to which the Court in these countries has performed its expected role identifies problems in approaches to interpretation which have been adopted and suggests alternatives to constitutional interpretation and judicial review The alternatives explored are drawn from contemporary western jurisprudence including those of Ronald Dworkin and writers of the Critical Legal Studies tradition The juxtaposition of western jurisprudential development to issues of constitutionalism in the countries under survey is a bold attempt to seek some common ground in conceptualizing rights and techniques of juristic interpretation in western and eastern legal cultures The theoretical framework of the study is well perceived the arguments convincing This carefully researched work makes a valuable and scholarly contribution to the study of comparative constitutional law and jurisprudence **Anonymous Power** Okechukwu Ibeanu,Israel 'Kelue Okoye,Ikenna Mike Alumona,Ernest Tooichi Aniche,2022-01-28 This book examines the structures and processes of political decision making and governance in Nigeria Since Nigeria returned to elected government in 1999 it has been observed that several factors account for the differences between the design of statutory structures and processes of political decision making and how they operate in reality In other words there are wide gaps between statutes and practice of political decision making

However the nexus between the two remains largely understudied by political scientists. Instinctively political scientists assume that informal influences in political decision making are aberrations, episodic or temporary. This book is designed to interrogate the nexus between the formal and non formal dimensions of the dynamics of political decision making in Nigeria and also provide evidence about the actual functioning of governmental structures in Nigeria. The thesis of the book is that the non formal dimension of political decision making as evidenced in rising ethno political patronages, religious sentiments, clientelism and factionalism are interacting with formal decision making structures in ways that largely undermine the latter and by extension the democratic system. The book pursues this thesis by examining the roles of actors and institutions including electoral choices made by voters, legislations which perhaps is the most fundamental form of political decision making, policies made by the executive and administration as well as decision making within political parties since parties are sites for articulating and aggregating issues on which decisions are to be made.

Social Division Alan Carling, 1991. Social divisions are systematic social inequalities which are frequently regarded as unjust and are fateful in the lives of individuals.

have firmly taken centre stage in the development agenda of international organisations as well as in developed and developing countries. One area in which corruption manifests itself is in public procurement and as a result States have adopted various measures to prevent and curb corruption in public procurement. One such mechanism for dealing with procurement corruption is to debar or disqualify corrupt suppliers from bidding for or otherwise obtaining government contracts. This book examines the issues and challenges raised by the debarment or disqualification of corrupt suppliers from public contracts. Implementing a disqualification mechanism in public procurement raises serious practical and conceptual difficulties which are not always considered by legislative provisions on disqualification. Some of the problems that may arise from the use of disqualifications include determining whether a conviction for corruption ought to be a pre requisite to disqualification, bearing in mind that corruption thrives in secret resulting in a dearth of convictions. Another issue is determining how to balance the tension between granting adequate procedural safeguards to a supplier in disqualification proceedings and not delaying the procurement process. A further issue is determining the scope of the disqualification in the sense of determining whether it applies to firms, natural persons, subcontractors, subsidiaries or other persons related to the corrupt firm and whether disqualification will lead to the termination of existing contracts. The book compares and contrasts the legal, practical and institutional approaches to the implementation of the disqualification mechanism in the European Union, the United Kingdom, the United States, the Republic of South Africa and the World Bank.
