Thomas Edison

Thomas Edison was a famous inventor who lived in the late 1800s and early 1900s. He was born in 1847 in Ohio, USA. Thomas was a curious child who loved to tinker with things and figure out how they worked.

One day, when Thomas was just a young boy, he saw a train conductor save a young boy from being hit by a train. The conductor was so grateful that he taught Thomas how to use a telegraph machine. This sparked Thomas's interest in electricity and communication.

As Thomas grew up, he continued to experiment with different inventions. He opened his own laboratory and started working on creating new and improved inventions. One of his first big inventions was the phonograph, which was a machine that could record and play back sound. People were amazed by this invention and it made Thomas Edison famous.

But Thomas was not done yet. He went on to invent the light bulb, which would change the way people lived and worked. Before the light bulb, people had to rely on candles and gas lamps to light their homes and businesses. The light bulb made it possible for people to work and play at night, and it made life much easier and safer.

Thomas Edison went on to invent many more things, including the motion picture camera and the alkaline battery. He held over 1,000 patents for his inventions, which is more than any other inventor in history.

Thomas Edison's inventions have had a lasting impact on the world. Without his contributions, we might still be living in the dark ages. Thanks to Thomas Edison, we have light, sound, and power at our fingertips.

In conclusion, Thomas Edison was a brilliant inventor who changed the world with his inventions. He was a curious and determined person who never gave up on his dreams. Thomas Edison's legacy lives on today, inspiring future inventors to dream big and never stop trying to make the world a better place.

Monsters Under the Bed Andrew Melrose, 2013-06-17 *Monsters Under the Bed* is an essential text focussing on critical and contemporary issues surrounding writing for early years children. Containing a critically creative and a creatively critical investigation of the cult and culture of the child and childhood in fiction and non-fictional writing, it also contains a wealth of ideas and critical advice. This text dynamically explores the issue of picture books literacy and writing for early years children with a wider view on child-centred culture, communication and media. Internationally recognised as an expert in the field, Andrew Melrose encourages academics, researchers and students to examine the fundamental questions in writing for and addressing early years children through an exploration of text and images. Accessibly written and lively in its approach, this book includes an accessible and critically important challenge to the latest international academic research and debates in the field of children's literature and creative writing, an extensive investigation of early years writing and reading, a pathway to developing critical awareness of children's literature, allowing students to develop their own critical ability and writing skills, constant checkpoints throughout in which the reader is encouraged to reflect on critically creative and creatively critical development. Providing a coherent and pedagogical approach, this compelling text will be an indispensable resource for critics, writers and students interested in children's writing, as well as those on Creative Writing, Children's Literature and English BA and MA programmes. It will also be of great interest to those in teacher training, PGCE students and for those studying at Doctoral and Post Doctoral level.

The Story of Henry Ford J.D. Rockefeller, Born on July 30 1863 the American industrialist Henry Ford was the founder of the Ford Motor Company. Henry Ford did not invent the automobile but he was definitely the one who made it possible for a middle class American to buy one. Ford became one of the richest men in the world thanks to the success and profit of Ford Motor Company. He created the Ford Model T car in 1908 and made good use of the assembly line mode of production to mass produce an inexpensive car, a method which is often known as Fordism. He sold millions of cars to the common American consumer and had a lasting impact on infrastructure and technological development in the US. In this book we will take a look at how Henry Ford became one of the richest persons in the entire world and how he revolutionized industry by developing assembly line production.
