Thomas International General Intelligence Assessment:

Cultural Intelligence in the World of Work Yuan Liao, David C. Thomas, 2020-01-28 This book provides a comprehensive review of both the theoretical development and empirical study of the concept of cultural intelligence. A review of previous work on cross cultural competence provides an historical backdrop against which the two main theories of cultural intelligence are presented. These two approaches as well as the assessments derived from them are compared and evaluated. Issues associated with the measurement of cultural intelligence are examined in detail. An important feature of the review of the empirical work on cultural intelligence is that results are discussed in terms of the relationship of the four sub dimensions of the Cultural Intelligence Scale CQS and also that results using the Short Form Cultural Intelligence Scale SFCQ and other measures of the concept are included. The review of empirical work includes studies that cast cultural intelligence as an antecedent as a dependent variable and as a moderator and a mediator. Cultural intelligence at the group and organizational levels are also discussed. Finally this review sets the stage for a discussion of appropriate future directions in the study of cultural intelligence. Scholars in organizational psychology interested in the concept of cultural intelligence will find this an essential guide.

Safety and Health Competence Ulrike Bollmann, George Boustras, 2020-06-11 Global and technological transformation is changing work and learning. A broader understanding of prevention and cultural change associated with it is putting new demands on companies and their employees. People and organizations need suitable competences to deal with this transformation. They need to be empowered to shape decent living and working conditions. **Safety and Health Competence: A Guide for Cultures of Prevention** is written in the context of work and health. The use of a social constructive and a context sensitive approach to competence in occupational safety and health is new and forms a theoretical basis for putting into place the necessary learning processes for cultural transformation in companies and educational institutions. Covers a broad range of new demands placed on companies and employees in this age of global and technological transformation. Provides assistance with a better understanding of the current debate on occupational safety and health. OSH competences. Presents a comprehensive source of information for OSH experts, human resource specialists, educational institutions, training development specialists, teachers and trainers, allowing them to identify competence needs, promote competence development and assess competences. Explains what the concept culture of prevention means. Offers real life examples that will appeal to practitioners.
