automatic electric gun AEG is a type of battery powered air gun capable of full semi auto firing An electric motor inside the
AEG rotates a series of gears sequentially to drive the piston which in turn compresses the spring When the spring is
released the piston is being pushed forward to produce compressed air and propel the bullets Due to such a complex internal
structure power upgrade is never easy There is no substitute for good old fashioned know how By upgrading the gun yourself
you are knocking out the hardest part of it first knowing what goes where The 2015 Edition of this book presents new
concepts and practical skills reflecting the latest changes and trends in the airsoft industry New technologies such as
Electric Blowback EBB and Electric Recoil Gun ERG are also included in the coverage After trying out the tricks and tips
suggested in this book never hesitate to contact us should you believe there are mistakes waiting to be corrected there are
