Thrasher English Edition:

Alexander von Humboldt's Transatlantic Personae Vera Kutzinski, 2014-06-11 Who was Alexander von Humboldt Was he really a lone genius Was he another European apologist for colonialism in the Americas or the father of Latin American independence Was he a roving Romanticist or did his sensibilities belong to the Enlightenment Naturalist philosopher historian and proto sociologist to name just some of the fields to which he contributed Humboldt is impossible to contain in a single identity or definition His voluminous writings range across so many different fields of knowledge that his scholarly scientific personae multiplied even during his lifetime and they have continued to proliferate since his death in 1859 A household word throughout the nineteenth century Humboldt was eventually eclipsed by Charles Darwin whose own travels had been motivated by Humboldt's and disappeared from view for much of the twentieth century notably in the United States The essays in this collection testify to the renewed interest that Alexander von Humboldt's multi faceted work is inspiring in the twenty first century especially among cultural and literary historians from both sides of the Atlantic This book was originally published as a special issue of *Atlantic Studies*

Practices of Comparing Angelika Epple, Walter Erhart, Johannes Grave, 2020-06-22 Practices of comparing shape how we perceive organize and change the world Supposedly innocent practices of comparing play a decisive role in forming categories boundaries and hierarchies but they can also give an impetus to question and change such structures Like almost no other human practice comparing pervades all social political economic and cultural spheres This volume outlines the program of a new research agenda that places comparative practices at the center of an interdisciplinary exploration Its contributions combine case studies with overarching systematic considerations They show what insights can be gained and which further questions arise when one makes a seemingly trivial practice comparing the subject of in depth research

The Passage to Cosmos Laura Dassow Walls, 2011-11-15 Humboldt offered the world a vision of humans nature as integrated halves of a single whole He espoused the idea that while the universe of nature exists apart from human purpose its beauty order are human achievements Laura Dassow Walls traces the emergence of this philosophy to Humboldt's 1799 journey to America Nature Translated Alison E. Martin, 2018-09-07 The first extensive analysis of the translation publication and critical reception of Alexander von Humboldt's writings in nineteenth-century Britain Prompts a rethinking of the role of translation in mediating scientific knowledge Reconsiders how translators shape a scientist's international reputation Draws on extensive archival material in neglected publishers' archives to shed new light on how authors their

translators and their publishers collaborate Alexander von Humboldt was one of the most important scientists of the nineteenth century Captivating his readers with his vibrant lyrical prose he transformed understandings of the earth and space by rethinking nature as the interconnection of global forces This book argues that style was key to the success of these translations and shows how Humboldt's British translators now largely forgotten figures were pivotal in moulding his prose and his public persona as they reconfigured his works for readers in Britain and beyond

Folk Songs of the Catskills Norman Cazden, Herbert Haufrecht, Norman Studer, 1983-06-30 Part of the ancient Appalachians and just a few miles up the road from a massive metropolitan area the Catskills have been home to the variety of people who have made the history of the New World The songs collected here reflect this history They are songs of rafting and lumbering war and railroads prison and hard times and nonsense and drinking And they are songs of love tragic love thwarted love foolish love and sometimes even true love Collecting the songs began in 1941 when educator Norman Studer and composer Herbert Haufrecht led a group of young people on folklore trips through the mountains The distinguished musician Norman Cazden continued the collection adding his research and scholarship The book is the cumulative work of these three colleagues Useful as an annotated archive of regional lore *Folk Songs of the Catskills* traces roots to early Scottish Irish Welsh English and American sources Both texts and musical structure are compared to other traditional songs Extended search for tune relatives is directed towards tracing the known use of each tune strain whether in variants with similar texts or quite different texts Some of the Catskill versions of tunes have not been found elsewhere and others are rarely encountered Whether related to others or unique to the Catskills the commentary on the songs in this collection contributes to a more general theory of the nature of traditional tunes and their transformation The late composer musicologist and university professor Norman Cazden worked meticulously over a period of many years to trace traditional melodies and texts Both Cazden and fellow composer Herbert Haufrecht were music directors of Camp Woodland a unique summer school in the Catskill Mountains which acquainted students with the folklore of this musically rich region The late Norman Studer one of the founders and for many years the director of Camp Woodland was also an ardent folklorist who

spent much of his life in the hills and hollows of the Catskills looking for folksingers and yarnspinners Together these devoted scholars have created a work that is as enjoyable as it is rare **Fatal Revolutions** Christopher P. Iannini,2013-03-12

Drawing on letters illustrations engravings and neglected manuscripts Christopher Iannini connects two dramatic transformations in the eighteenth century Atlantic world the emergence and growth of the Caribbean plantation system and the rise of natural science Iannini argues that these transformations were not only deeply interconnected but that together they established conditions fundamental to the development of a distinctive literary culture in the early Americas In fact eighteenth century natural history as a literary genre largely took its shape from its practice in the Caribbean an oft studied region that was a prime source of wealth for all of Europe and the Americas The formal evolution of colonial prose narrative Ianinni argues was contingent upon the emergence of natural history writing which itself emerged necessarily from within the context of Atlantic slavery and the production of tropical commodities As he reestablishes the history of cultural exchange between the Caribbean and North America Ianinni recovers the importance of the West Indies in the formation of American literary and intellectual culture as well as its place in assessing the moral implications of colonial slavery *The Almanac of British Politics* Robert Waller,Byron Criddle,2007-05-07 The latest edition of *The Almanac of British Politics* has been thoroughly revised and updated to include full details of the new constituencies following the comprehensive boundary changes which will come into force throughout the United Kingdom at the next election It has firmly established itself as the definitive guide to the electoral map of the UK for nearly twenty five years covering in detail each of the constituencies sending representatives to the House of Commons Its comprehensive coverage provides a witty and informative biographical profile of every Member of Parliament and a detailed social demographic economic and political analysis with statistics of seats to give the clearest picture of the British social and political landscape in the twenty first century This is the essential reference work on British politics for students academics journalists and psephologists **Historical Abstracts** Eric H.

Boehm,1962 Vols for 1971 issued in two parts Pt A Modern history abstracts 1450 1914 Pt B Twentieth century abstracts 1914 Resource Publication ,1988 **A Mirror of Hannibal** C. P. Greene,1905 **Makers of America** Leonard

Wilson,1922 **The Reckoning** Robin Blackburn,2024-02-20 Tremendously impressive the result of a lifetime of learning Historical writing at its best Marcus Rediker author of *The Slave Ship* A history of 19th century slavery in the US Brazil and Cuba from a critically acclaimed historian of slavery in the Americas *The Reckoning* offers the first rounded account of the rise and fall of the Second Slavery largescale plantation slavery in nineteenth century Brazil Cuba and the US South Robin Blackburn shows how a fusion of industrial capitalism and transatlantic war and revolution turbo charged racial oppression and the westwards expansion of the United States Blackburn identifies the new territories new victims and new battle cries of the Second Slavery He emphasises the role of financial credit in the spread of plantation agriculture traces the connections between slavery and the US Civil War and asks why Brazil threw off Portuguese rule whereas Cuba became one

of imperial Spain's final outposts. The Second Slavery faced a fearful reckoning in the 1860s and after when the supposedly invincible Slave Power was defied by extraordinary cross-class international and interracial alliances. Blackburn narrates the abolitionists' difficult victory over the enslavers while documenting the racial backlash which brought on Jim Crow and cheated the freedmen and freedwomen of the fruits of their struggle.
