Copublication Thomas R. Hargrove, R. C. Cabrera, F. E. Manto, 1983 The Mystery and the World Maria Clara Bingemer, 2017-02-23 In *The Mystery and the World* Maria Clara Bingemer explores how the place of religion in society has dramatically shifted since the Enlightenment. The modern era is characterised by a major change in humanity's fundamental desires that means that reason has taken the place of faith. Human beings in their ongoing search for a scientific understanding of the world have drifted away from seeking any essence of transcendence in their lives. Bingemer examines this transition and how especially in the postmodern era it has led to technology and superficial happiness becoming all important as opposed to the more sacred sense of contentment that governed us for centuries prior to the Enlightenment. In her discussion however Bingemer demonstrates that we as humans have not lost our innate desire to believe in a higher power and that even in our world of instant satisfaction we still need to fill the void left by religion. Through well researched analysis of the modern era and discussion of some of the mystics of more recent times she reveals to readers how our religious belief whilst changed is not dead and is still an important aspect of our existence. **Dr. W. Orthodoxy and Heresy in Early Christian Contexts Paul A Hartog, 2015-08-27 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity. He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day. The victors rewrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity. Bauer's influence still casts a long shadow on early Christian scholarship. Were heretical movements the original forms of Christianity? Did the heretics outnumber the orthodox? Did orthodox heresiologists accurately portray their opponents? And more fundamentally how can one make any objective distinction between heresy and orthodoxy? Is such labeling merely the product of socially situated power? Did numerous valid forms of Christianity exist without any validating norms of Christianity? This collection of essays each written by a relevant authority tackles such questions with scholarly acumen and careful attention to historical cultural geographical and socio rhetorical detail. Although recognizing the importance of Bauer's critical insights innovative methodologies and fruitful suggestions the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence. *Grants and Awards* National Science Foundation (U.S.), **Life and Work of Erich Neumann** Angelica Löwe, 2020-05-10 *Life and Work of Erich Neumann* On the Side of the Inner Voice is the first book to discuss Erich Neumann's life work and relationship with C G Jung. Neumann 1905-1960 is considered Jung's most important student and in this deeply personal and unique volume Angelica Löwe casts Neumann's comprehensive work in a completely new light. Based on conversations with Neumann's children Ralf Loewenthal Neumann and Professor Micha Neumann Löwe explores Neumann's childhood and

adolescent years in Part I including how he met his wife and muse Julie Blumenfeld In Part II the book traces their life and work in Tel Aviv where they moved in the early 1930s amid growing anti Jewish tensions in Hitler s Germany Finally in Part III L we analyses Neumann s most famous works This is the first book length discussion of the existential questions motivating Neumann s work as well as the socio historical circumstances pertaining to the problem of Jewish identity formation against rising anti Semitism in the early 20th century It will be essential reading for Jungian analysts and analytical psychologists in practice and in training as well as scholars of Jungian and post Jungian studies and Jewish studies
