Three Republics One Navy Anthony Clayton, 2014-12-19 In the 1870s to supplement their early steam engines French warships were still rigged for sail In the 1970s the Marine Nationale's ships at sea included aircraft carriers operating supersonic jets and intercontinental ballistic missile submarines propelled by nuclear engines Within this one hundred years the Marine has played important roles in the acquisition of Asian and African colonial empires until 1900 the lead role in a naval Cold War against Great Britain in 1904 1920 preparation largely Mediterranean based for and participation in a Paris agenda in the First World War a spectacular modernization unfortunately incomplete in the inter war years division tragic self destruction and a rebirth in the Second World War important roles in the two major decolonization campaigns of Indochina and Algeria and finally in the retention of major world power status with power projection roles in the late 20th century requiring a navy with both nuclear age and traditional amphibious operational capabilities The enormous costs involved were to lead to reductions and a new naval relationship with Great Britain at the end of the 20th Century These successive radical changes were set against political dispute turmoil and in the years 1940 to 1942 violent division Political leaders from the 19th Century imperialists to the Fifth Republic sought a lead role for France or if not sufficient naval power to effectively influence allies and world affairs Domestic economic difficulties more than once led to unwise navy on the cheap policies and construction programs The major post 1789 rift in French society appears occasionally among crews on board ships in docks and builders yards and in 1919 1920 open mutinies in ships at sea In this work the author has tried to weave together these very varied strands into a history of a navy whose nation's priorities have more often been land frontier defense the navy undervalued with a justifiable pride in its achievements poorly recognized A study of the history of the Marine is also useful and important contribution to wider studies of French national history over thirteen tumultuous decades

High Hulls Charles R. G. Bain ,2018-11-27 For a time the flying boat was seen as the way of the future These aircraft so strange and foreign to the modern mind once criss crossed the world and fulfilled essential military roles In his latest book for Fonthill Charles Bain looks at the golden age of the flying boat when these sometimes strange and often beautiful vessels spanned the globe These vessels a combination of ship and airplane found themselves working as patrol aircraft passenger aircraft transports and even as combat aircraft This volume contains their stories from memorable aircraft such as the Short Sunderland and Boeing 314 Clipper to the craft that roamed the Pacific Theatre of the Second World War to forgotten giants from Saunders Roe and even strange jet fighters that once landed like ducks It even includes the flying boat that has not let time get in the way of doing its job the Martin Mars Each of these aircraft has a story worthy of the telling and often a memorable role to play in the history of aviation

Geheimnis und Sicherheit Markus Pöhlmann,2024-02-19 Seit jeher waren Staaten daran interessiert Kenntnis über das militärische Potenzial ihrer Nachbarn zu erlangen Aber erst im letzten Drittel des 19. Jahrhunderts schufen sie im Geheimen arbeitende Organisationen die diese Informationen laufend gewannen analysierten und für die Entscheidungsträger bereitstellten Dieses Buch untersucht die Gründungsgeschichte von militärischen Nachrichtendiensten in den Jahren zwischen 1871 und 1914 erstmals in vergleichender Perspektive für die drei Heere im Deutschen Reich in Frankreich und in Großbritannien Es analysiert die politischen und gesellschaftlichen Rahmenbedingungen die Rolle des nachrichtendienstlichen Raumes die Herausforderung der Streitkräfte durch Wissenschaft und Technik und ihren Umgang mit den wahrgenommenen Bedrohungen der inneren und äußeren Sicherheit Der Autor zeichnet die Entstehung des modernen Führungsbereiches Militärisches Nachrichtenwesen auf Die Präsentation ausgewählter Operationen zeigt dass es dabei schon immer um mehr als nur Spionage ging sondern um staatliches Wissensmanagement an den Schnittstellen von Militär Polizei und Diplomatie

The Fall and Rise of French Sea Power Hugues Canuel,2021-04-15 The Fall and Rise of French Sea Power explores the renewal of French naval power from the fall of France in 1940 through the first two decades of the Cold War The Marine nationale continued fighting after the Armistice a service divided against itself The destruction of French sea power at the hands of the Allies the Axis and fratricidal confrontations in the colonies continued unabated until the scuttling of the Vichy fleet in 1942 And yet just over twenty years after this dark day Charles de Gaulle announced a plan to complement the country s nuclear deterrent with a force of nuclear powered ballistic missile carrying submarines Completing the rebuilding effort that followed the nadir in Toulon this force

provided the means to make the Marine nationale a fully fledged blue water navy again ready to face the complex circumstances of the Cold War An important continuum of cooperation and bitter tensions shaped naval relations between France and the Anglo Americans from World War II to the Cold War The rejuvenation of a fleet nearly wiped out during the hostilities was underpinned by a succession of forced compromises often the least bad possible reluctantly accepted by French politicians and admirals but effectively leveraged in their pursuit of an independent naval policy within a strategy of alliance Hugues Canuel demonstrates that the renaissance of French sea power was shaped by a naval policy formulated within a strategy of alliance closely adapted to the needs of a continental state with worldwide interests This work fills a distinct void in the literature concerned with the evolution of naval affairs from World War II to the 1960s The author drawing upon extensive research through French British American and NATO archives including those made public only recently regarding the sensitive circumstances surrounding the French nuclear deterrent maps out for readers the unique path adopted in France to rebuild a blue water fleet during unprecedented circumstances *Pepys's Navy* J.
