Tigers In Red Weather A Novel:

Tigers in Red Weather Liza Klaussmann, 2012-07-17 Nick and her cousin Helena have grown up sharing sultry summer heat sunbleached boat docks and midnight gin parties on Martha's Vineyard in a glorious old family estate known as Tiger House. In the days following the end of the Second World War the world seems to offer itself up and the two women are on the cusp of their real lives. Helena is off to Hollywood and a new marriage while Nick is heading for a reunion with her own young husband Hughes about to return from the war. Soon the gilt begins to crack. Helena's husband is not the man he seemed to be and Hughes has returned from the war distant, his inner light curtained over. On the brink of the 1960s back at Tiger House Nick and Helena with their children Daisy and Ed try to recapture that sense of possibility. But when Daisy and Ed discover the victim of a brutal murder the intrusion of violence causes everything to unravel. The members of the family spin out of their prescribed orbits secrets come to light and nothing about their lives will ever be the same. Brilliantly told from five points of view with a magical elegance and suspenseful dark longing *Tigers in Red Weather* is an unforgettable debut novel from a writer of extraordinary insight and accomplishment.

Tigers In Red Weather Ruth Padel, 2009-05-26 Poet, writer and descendant of Charles Darwin Ruth Padel set out to visit a tropical jungle and wildlife sanctuary in India and her visit turned into a remarkable two year journey through eleven countries in search of that most elusive and most beautiful animal the tiger. Armed with her grandmother's opera glasses and Tunisian running shoes she set off across Asia to ask the question can the tiger be saved from extinction in the wild. Tigers are an umbrella species they need everything in the forest to work in tandem they eat deer the deer need vegetation the vegetation has to be pollinated by birds mammals rodents and butterflies. If you save the tiger you save everything else. Today the 5 000 tigers that still survive in the wild live only in Asia and are scattered throughout 14 countries.

Padel says that while tigers will never become extinct they are too popular for that they may disappear from the wild There are as many tigers in cages in the US as there are surviving tigers in the wild As she travels she meets the defenders of the wild the heroic scientists forest guards and conservationists at the frontline fighting to save tigers and their forests from destruction in the places where poverty threatens to wipe out all wildlife She also examines her fascination both as a poet and as the great great granddaughter of Charles Darwin with nature wildness and survival and in the end becomes a knowledgeable advocate for the tiger The result is a beautiful blend of natural history travel literature and memoir and a searing intimate portrait of an animal we have loved and feared almost to extinction **Tigers in Red Weather** Liza
