Economics and Political Implications of International Financial Reporting Standards Uchenna, Efobi, Nnadi, Matthias, Tanna, Sailesh, Iyoha, Francis, 2016-03-08 International Financial Reporting Standards IFRS are internationally recognized financial reporting guidelines regulated by the International Accounting Standards Board IASB to ensure that uniformity exists in the global financial system. In addition to regulating financial reporting, the adoption of IFRS has been shown to impact the flow of foreign capital and trade. Economics and Political Implications of International Financial Reporting Standards focuses on the consequences and determinants of the adoption of the International Financial Reporting Standard IFRS which has remained a top issue in International Accounting. This timely publication brings to the forefront issues related to the political and economic influences and impacts of IFRS in addition to providing a platform for further research in this area. Policy makers, academics, researchers, graduate level students and professionals across the fields of management, economics, finance, international relations and political science will find this publication pertinent to furthering their understanding of financial reporting at the global level.

Sustainable Finance and Business in Sub-Saharan Africa David Mhlanga, Mufaro Dzingirai, 2024-12-13 In the 21st century the imperative for sustainable development has assumed a paramount role, echoing the pressing global concerns surrounding environmental degradation, social inequalities and economic challenges. Within this context, Sub-Saharan Africa emerges as a region of particular significance where the pursuit of sustainability holds immense promise and relevance. Despite being endowed with abundant natural resources and a vibrant entrepreneurial spirit, Sub-Saharan Africa grapples with enduring issues of poverty, inequality and environmental harm. This book explores the innovative paradigms of sustainable finance and business within Sub-Saharan Africa, exploring how novel approaches can effectively tackle the region's most pressing challenges while simultaneously catalyzing economic growth and societal progress. The chapters presented here comprise a diverse array of cutting edge financial strategies, circular economy initiatives, technological advancements and business models that are revolutionizing sustainable development across the continent. Sub-Saharan Africa, characterized by its youthful demographic and rapidly expanding economies, is poised for transformation. Yet it confronts formidable obstacles in the form of poverty, inequality and environmental degradation. The United Nations Sustainable Development Goals (SDGs) offer a comprehensive framework to address these issues. However, realizing these objectives requires innovative solutions that can surmount the unique constraints of the region. Fortunately, Sub-Saharan Africa is a crucible of innovation with a growing community of entrepreneurs, financiers and decision makers committed to sustainable development. Initiatives promoting circular economies are reducing waste and enhancing resource efficiency while financial instruments like impact investing and green bonds are attracting new streams of funding. Simultaneously, technological breakthroughs such as mobile payment systems and renewable energy solutions are expanding access to essential services and driving economic expansion. Despite these encouraging advancements, Sub-
