Markets and Development Toby Carroll, Darryl Jarvis, 2017-10-02 Markets and Development presents a series of critical contributions focused on the political relationship between citizens civil society and neoliberal development policy's latest form The dramatic increase of access to finance investments newly gender sensitive approaches to building neoliberal labour markets the universal promotion of public private partnerships and the development financing of extractive industries have all seen citizens social movements and NGOs variously engaged in and against neoliberalism like never before The precise form that this engagement takes is conditioned by both the perceived and real opportunities and the risks of an agenda which seeks to intern emerging and frontier markets deep within a concretising world market with transformative repercussions for both those involved and notably for state society relations The contributors to this volume focus on essential aspects of the contemporary neoliberal development agenda and its relationship to and with citizens and civil society tackling questions related to the roles that various actors within civil society in the underdeveloped world are playing under late capitalism and how these roles relate to current efforts to establish and extend markets and market society more broadly in a neoliberal image This book was originally published as a special issue of Globalizations

Economics of Global Business Rodrigo Zeidan, 2018-11-13 A textbook with innovative real world macroeconomic analyses of timely policy issues with case studies and examples from more than fifty countries This timely and refreshingly real world focused textbook examines some of the world's most critical policy issues through a macroeconomics lens After presenting analytical foundations modeling tools and theoretical perspectives Economics of Global Business goes a step further than most other texts with a practical look at the local and multinational tradeoffs facing economic policymakers in more than fifty countries Topics range from income equality and the financial crisis to GDP inflation and unemployment and notably one of the first macroeconomic examinations of climate change Written by a globetrotting economist who teaches and consults on three continents Economics of Global Business aims not for definitive answers but rather to provide a better understanding of the context dependent rationales constraints and consequences of economic policy decisions The book covers long run and short run growth with examples from the United States China the European Union South Korea Japan Latin America Africa Australia and Vietnam financial crises and central banks monetary and fiscal policies government budgets currency regimes climate change and macroeconomics income inequality and globalization All chapters rely on recent and historical examples of economic policy in action The book is particularly suitable for use as an introduction to macroeconomics for business students

Indigenous Knowledge and Climate Governance Eromose E. Ebhuoma, Llewellyn Leonard, 2022-06-04 This book investigates indigenous knowledge systems IKS in sub

Saharan Africa thereby highlighting its role in facilitating adaptation to climate variability and change and also demystifying the challenges that prevent it from being integrated with scientific knowledge in climate governance schemes Indigenous people and their priceless knowledge rarely feature when decision makers prepare for future climate change This book showcases how Indigenous knowledge facilitates adaptation to climate change including how collaborations with scientific knowledge have cascaded into building people's resilience to climatic risks This book also pays delicate attention to the factors fueling epistemic injustice towards Indigenous knowledge which hampers it from featuring in climate governance schemes across sub Saharan Africa The key insights shared in this book illuminate the issues that contribute meaningfully towards the actualisation of the UN SDG 13 and promote mechanisms for raising capacity for effective climate change related planning and management in sub Saharan Africa

Handbook of Nature-Based Solutions to Mitigation and Adaptation to Climate Change Gustavo J. Nagy, Desalegn Yayeh Ayal, 2025-11-04 Over recent years nature based solutions NbS have gained popularity as tools to ameliorate the effects of climate change while slowing down the global warming process More specifically the potential of NbS has been explored in terms of meeting greenhouse gas emissions targets and fostering climate change adaptation NbS are methods that use and enhance nature to improve social and environmental challenges They involve several multifaceted actions that work sustainably to restore and protect the natural environment while helping people Therefore these solutions are useful in climate change adaptation and mitigation There are 3 main areas which NbS may target namely reducing exposure reducing sensitivity and supporting adaptive capacity Reducing exposure refers to protecting areas from existing climate change effects There is thus a perceived need to document and promote experiences related to NbS and to apply these in different contexts It is against this background that the Handbook of Nature Based Solutions to Mitigation and Adaptation to Climate Change is being produced The publication will showcase experiences related to NbS from around the world In particular it will gather examples of projects studies and the latest thinking on NbS which can serve the purpose of inspiring and fostering further works in this key area Thanks to its scope and thematic diversity the book will be of special interest to representatives from government organisations researchers and students from a wide range of natural and social sciences courses It will also provide useful information to practitioners and representatives from non governmental organisations

Les jeunes non scolarisés d'Afrique subsaharienne Keiko Inoue, Emanuela di Gropello, Yesim Sayin Taylor, James Gresham, 2015-07-14 The economic and social prospects are daunting for the 89 million out of school youth who comprise nearly half of all youth in Sub Saharan Africa Within the next decade when this cohort becomes the core of the labor market an estimated 40 million more youth will drop out and will face an uncertain future with limited work and life skills Furthermore out of school youth often are policy orphans positioned between sectors with little data low implementation capacity lack of interest in long term sustainability of programs insufficient funds and little coordination across the different government agencies This report provides a diagnostic analysis

of the state of out of school youth in Sub Saharan Africa focusing on the 12 to 24 year old cohort This report also examines the decision path youth take as they progress through the education system and the factors that explain youth s school and work choices It finds that individual and household characteristics social norms and characteristics of the school system all matter in understanding why youth drop out and remain out of school In particular six key factors characterize out of school youth i most out of school youth drop out before secondary school ii early marriage for female youth and iii rural residence increase the likelihood of being out of school iv parental education level and v the number of working adults are important household factors and vi lack of school access and low educational quality are binding supply side constraints Policy discussions on out of school youth are framed by these six key factors along with three entry points for intervention retention remediation and integration This report also reviews policies and programs in place for out of school youth across the continent Ultimately this report aims to inform public discussion policy formulation and development practitioners actions working with youth in Sub Saharan Africa *India & World Geography* YCT Expert Team, 2021 22 UPSC IAS All PCS India World Geography **Doctoral Training in Engineering** Wilson R. Nyemba, Keith F. Carter, 2024-03-07 The book provides a comprehensive analysis of Engineering Education in industrialising countries with Southern Africa as the case study benchmarked on institutions from the industrialised world with UK institutions as the reference This was motivated by the perennial shortage of engineers and engineering skills to drive industry in Southern Africa compounded by the mismatch of skills between those produced by tertiary institutions and those required by industry This book focuses on the insufficiencies in training through addressing the gap where the majority of engineering academics qualifications at MSc MEng level fall short of the internationally acceptable PhD DEng DTech In order to address such insufficiencies the book proposes and advocates for reskilling and doctoral training of engineering academics through the proposed and established DTCs within the region The book is targeted at graduate students engineering academics researchers university administrators foreign aid agencies captains of industry and policy makers in governments To all these readers the book offers **Regenerating Africa** Mammo Muchie, Vusi Gumede, 2017-04-11 It has been long overdue to address the principal problems that Africa continues to have How to bring real African solutions to these problems remains unresolved Palaeontologists have discovered that Africa is the origin of humanity Africa has also experienced the commodification of its humanity through slavery colonialism and apartheid The African continent has been influenced by a m lange of races cultures religions ethnic nationalities making the project of how the differences can be managed to forestall conflict and promote the unity of the current 54 states to turn the cacophony of noises into a single voice that can protect Africa a difficult challenge This book on Regenerating Africa Bringing African Solutions to African Problems addresses why Africans must come together and try to address their own problems They must look back to the spiritual struggle and knowledge heritage to re imagine and innovate a new Africa with leadership governance systems and institutions that can address the security and well being the
