This Time And Age:

Resolving the Late Paleozoic Ice Age in Time and Space Christopher R. Fielding, Tracy D. Frank, John L. Isbell, 2008-01-01
This volume summarizes new developments in understanding the longest lived icehouse period in Phanerozoic Earth history the late Paleozoic ice age Resolving the Late Paleozoic Ice Age in Time and Space provides summaries of existing and new data from the various Gondwanan continental relics and also reviews stratigraphic successions from the paleotropical and temperate regions of Laurussia that preserve an indirect record of glaciation It addresses the extent to which records of glaciation indicate protracted long term climatic austerity as opposed to fluctuating more dynamic climate and provides new constraints on the timing of glaciation Additionally it tackles questions of synchronicity of glaciation across the various Gondwanan continental relics and timing relationships between near field and far field records at greater levels of resolution than has been possible previously Results point toward a dynamic icehouse regime that is comparable to the Cenozoic icehouse and away from traditional interpretations of the late Paleozoic ice age as a single protracted event that involved stable long lived ice centers Publisher s website *The History of Palestine from the Patriarchal Age to the Present Time; with Introductory Chapters on the Geography and Natural History of the Country and on the Customs and Institutions of the Hebrews. Samuel K. K. Blankson, 2013-11-08 It is well known that Einstein said the past present and future syndrome is an illusion and it seems many philosophers and scientists agree with him and his theory of secular time The Ghanaian philosopher Samuel K K Blankson provides his answers to some of these problems in his new book in support of the secular theory of time including Past Present and Future Time Dilation the Minkowski four dimensional continuum or 4 D Geometry The Twin Paradox The Clocks Paradox Gravity Entropy and Curved Space Time which is said to make time travel a scientific possibility It includes his new theory that time is life and life is time and that without time there can be no life The book is written in his familiar style of avoiding all technicalities Moreover he wants these and other irritating topics to be separated from the logical interpretation of time He says not all of the mysteries of time can be laid bare but that it s secular he has no doubt PAST, PRESENT AND FUTURE AS TIME IN THE AGE OF SCIENCE - SECOND EDITION Samuel K. K. Blankson, 2016-01-31 The book is about the post relativity philosophy of time as championed by Bertrand Russell and Einstein It argues that The Past Present and Future notion of time is an illusion The sun as daylight is on constantly with no temporal past and future except in chemistry perhaps Only the earth s revolutions bring temporary days and nights So the Bertrand Russell notion that under relativity man constructs his time is logically unassailable the days weeks months and years are all human concepts Relativity allows time to begin from anywhere So the revolutionary view is that there are or can be as many times as there are frames or planets a world changing idea but true because it is based on objective physical experiments but generally ignored

The Age of Silver Ning Ma,2016-11-24 The Age of Silver advances a horizontal method of comparative literature and applies this approach to analyze the multiple emergences of early realism and novelistic modernity in Eastern and Western cultural spheres from the sixteenth through the eighteenth centuries Naming this era of economic globalization the Age of Silver Ning Ma emphasizes the bullion flow from South America and Japan to China through international commerce and argues that the resultant transcontinental monetary and commercial co evolutions stimulated analogous socioeconomic shifts and emergent novelistic realisms The main texts addressed within include The Plum in the Golden Vase China Don Quixote Spain The Life of an Amorous Man Japan and Robinson Crusoe England These Eastern and Western narratives indicate from their own geographical vantage points commercial expansions stimulation of social mobility and larger processes of cultural destabilization Their realist tendencies are underlain with politically critical functions and connote heteroglossic national imaginaries This horizontal argument realigns novelistic modernity with a multipolar global context and reestablishes commensurabilities between Eastern and Western literary histories The Age of Silver challenges the unilateral equation between globalization and modernity with westernization and foregrounds a polycentric mode of global early modernity for pluralizing the genealogy of world literature and historical transcultural relations Performance in an Age of Precarity Maddy Costa,Andy Field,2021-01-28 This magical book is a love letter to the artists whose imagination and cleverness transport us and unite us and to the beauty and fragility of their performance When I read it I feel like I am constantly on the joyful edge of falling in love trying so hard to keep hold of the feelings evoked A very precious book in our precarious times Vicky Featherstone An anthology of critical essays that draw on a decade of the authors thinking writing about and working within contemporary performance as critics producers dramaturgs makers archivists and more Together the 40 essays sketch a map of the contemporary performance landscape from avant garde dance to live art to independent theatre tracing the contours of its themes aims desires and relationship to the wider worlds of mainstream theatre art and politics Each

essay focuses on a particular artist and these include Bryony Kimmings Dickie Beau Forced Entertainment Scottee Selina Thompson Tania El Khoury and Uninvited Guests Reflecting the radical nature of the work considered the authors attempt to find a new vocabulary and a non conventional way of considering live performance in these essays As both a fresh survey of contemporary performance and an exploration of how to think and write about upstream and avant garde work this book should be an essential resource for students artists and audiences as well as an accessible entry point for anyone curious to know about the beautiful and strange things happening beyond the UK s theatrical mainstream **Railway Age** ,1926
