Farmer's Weekly, 1923 *Between Time and Space* Sulevi Riukulehto, 2015-05-13 In new regional history, national states are not seen to play a special role. Regions are understood as evolutionary processes in which time and space, history and geography are connected in research questions. To illustrate the entanglement of time and space in various forms and ages, this volume explores regional history from around the globe. The editor's review of the various works written under the heading of regional history serves as an introduction to this theme. This volume shows how historical events and changes have influenced the reproduction of regions. In Czechia, it will also highlight how regional identities were manifested in a cultural form in romantic operas of post-Napoleonic Europe. The historically rich West Wits Line gold mining region in the West Rand of South Africa is also examined within a regional history framework with the broad theme of ecohealth and well-being. Through case studies, the volume also explores the history of governance and planning in New Zealand's largest city region, Auckland, as well as the recent economic history of the State of Mato Grosso in Brazil. Finally, it also brings the idea of regional history to the most personal level of historical consciousness by examining the experiential shaping of home in the broader meaning of Heimat as a question of belonging somewhere both in time and in space. **The ^AOxford Handbook of Deaf Studies in Language** Marc Marschark, Patricia Elizabeth Spencer, 2015-12-08 Language development and the challenges it can present for individuals who are deaf or hard of hearing have long been a focus of research, theory and practice in Deaf studies and deaf education. Over the past 150 years, advances in the acquisition and development of language competencies and skills have been increasing rapidly. This volume addresses many of those accomplishments as well as remaining challenges and new questions that have arisen from multiple perspectives: theoretical, linguistic, social, emotional, neurobiological and socio-cultural. **Termites of the Gods** Siyakha Mguni, 2015-03-01 Siyakha Mguni's personal journey over many years to discover the significance of a hitherto enigmatic theme in San rock paintings known as formlings. In *Termites of the Gods*, Siyakha Mguni narrates his personal journey over many years to discover the significance of a hitherto enigmatic theme in San rock paintings known as formlings. Formlings are a painting category found across the southern African region, including South Africa, Namibia and Zimbabwe, with its densest concentration in the Matopo Hills.

Zimbabwe Generations of archaeologists and anthropologists have wrestled with the meaning of this painting theme in San cosmology without reaching consensus or a plausible explanation Drawing on San ethnography published over the past 150 years Mguni argues that formlings are in fact representations of flying termites and their underground nests and are associated with botanical subjects and a range of larger animals considered by the San to have great power and spiritual significance This book fills a gap in rock art studies around the interpretation and meaning of formlings It offers an innovative methodological approach for understanding subject matter in San rock art that is not easily recognisable and will be an invaluable reference book to students and scholars in rock art studies and archaeology American Druggists' Circular and Chemical Gazette ,1867 **Human Rights and the South African Legal Order** John Dugard,2015-03-08 As an Advocate of the Supreme Court John Dugard observes the South African legal order daily in operation In this book he provides a thorough description and probing analysis of the workings of the system He places South Africa s legal order in a comparative context examining the climate of legal opinion crucial judicial decisions and their significance in relation to contemporary thought and practice in England America and elsewhere He also considers South Africa s laws in the light of its history politics and culture Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Large Meteorite Impacts and Planetary Evolution VI** Wolf Uwe Reimold,Christian Koeberl,2021-09-23 This volume contains a sizable suite of contributions dealing with regional impact records Australia Sweden impact craters and impactites early Archean impacts and geophysical characteristics of impact structures shock metamorphic investigations post impact hydrothermalism and structural geology and morphometry of impact structures on Earth and Mars Politics By Other Means Richard Abel,2015-12-22 Politics by Other Means explores the fundamental question of how law can constrain political power by offering a pathbreaking account of the triumphant final decade of the struggle against apartheid Richard Abel presents case studies of ten major legal campaigns including challenges to pass laws black trade union demands for recognition state terror censorship resistance to the independent homelands and treason trials **Travels in the Interior of Southern Africa** William John Burchell,2015-07-02 A celebrated two volume geography and ethnography of southern Africa in 1811 15 by a British botanist originally published 1822 4 **Druggists' Circular and Chemical Gazette** ,1868 Includes Red book price list section title varies slightly issued semiannually 1897 1906
