Moments of Valuation Ariane Berthoin Antal, Michael Hutter, David Stark, 2015 The outcome of innovation processes are determined by complex historically grown valuation practices In this book a wide range of innovations are taken into consideration from small inventions like entertainment novelties to large societal changes through new technologies The chapters observe the particular local or distributed sites in which their episodes of innovation take place and they identify the initial dissonance among those judging a newly proposed alternative The emphasis of the inquiry however is on the practices of valuation that are at work when something succeeds in being new The authors represent a wide variety of sub disciplines and national backgrounds in the social sciences They share an interest in social valuation and a pragmatist approach The differences between their empirical evidence reflect the wide variety of appearances that valuation takes in contemporary society They are anthropologists economic or cultural sociologists organization researchers historians or political scientists A number of chapters deals with aesthetic valuation as in the tasting of a new vintage or in the socio technical process that shaped successful synthesizer sounds Other chapters discuss the judgment processes in organizations like architect offices or consultancy firms and processes of evaluation and valorization in larger fields of practice like accounting or mathematics The studies are both of interest in their various professional fields and contribute to a more general understanding of the social and cultural conditions under which innovations fail and succeed

The Provoked Economy Fabian Muniesa, 2014-05-16 Do things such as performance indicators valuation formulas consumer tests stock prices or financial contracts represent an external reality Or do they rather constitute in a performative fashion what they refer to The Provoked Economy tackles this question from a pragmatist angle considering economic reality as a ceaselessly provoked reality It takes the reader through a series of diverse empirical

sites from public administrations to stock exchanges from investment banks to marketing facilities and business schools in order to explore what can be seen from such a demanding standpoint It demonstrates that descriptions of economic objects do actually produce economic objects and that the simulacrum of an economic act is indeed a form of realization It also shows that provoking economic reality means facing practical tests in which what ought to be economic or not is subject to elaboration and controversy This book opens paths for empirical investigation in the social sciences but also for the philosophical renewal of the critique of economic reality It will be useful for students and scholars in social theory sociology anthropology philosophy and economics

The Constitution of Algorithms Florian Jatton, 2021-04-27 A laboratory study that investigates how algorithms come into existence Algorithms often associated with the terms big data machine learning or artificial intelligence underlie the technologies we use every day and disputes over the consequences actual or potential of new algorithms arise regularly In this book Florian Jatton offers a new way to study computerized methods providing an account of where algorithms come from and how they are constituted investigating the practical activities by which algorithms are progressively assembled rather than what they may suggest or require once they are assembled

Assetization Kean Birch, Fabian Muniesa, 2020-07-14 How the asset

anything that can be controlled traded and capitalized as a revenue stream has become the primary basis of technoscientific capitalism In this book scholars from a range of disciplines argue that the asset meaning anything that can be controlled traded and capitalized as a revenue stream has become the primary basis of technoscientific capitalism An asset can be an object or an experience a sum of money or a life form a patent or a bodily function A process of assetization prevails imposing investment and return as the key rationale and overtaking commodification and its speculative logic Although assets can be bought and sold the point is to get a durable economic rent from them rather than make a killing on the market Assetization examines how assets are constructed and how a variety of things can be turned into assets analyzing the interests activities skills organizations and relations entangled in this process The contributors consider the assetization of knowledge including patents personal data and biomedical innovation of infrastructure including railways and energy of nature including mineral deposits agricultural seeds and natural capital and of publics including such public goods as higher education and monetizable social ills Taken together the chapters show the usefulness of assetization as an analytical tool and as an element in the critique of capitalism Contributors Thomas Beauvisage Kean Birch Veit Braun Natalia Buier B atrice Cointe Paul Robert Gilbert Hyo Yoon Kang Les Levidow Kevin Mellet Sveta Milyaeva Fabian Muniesa Alain Nada Daniel Neyland Victor Roy James W Williams Enterprise Knowledge Capital Blandine Laperche, 2017-11-29 Thoroughly grounded in an extensive body of international research and analysis this book investigates the concepts surrounding a firm s knowledge capital These concepts play an integral part in the evolution of economic and managerial thinking particularly in relation to the themes of firm knowledge and innovation The author advocates a greater socialization of the production of knowledge capital that stands in contradiction to the strong appropriation strategies that are predominant today This book presents a historical analysis of the facts with a strong basis in the recent literature in economics and innovation management as well as in case studies of CAC 40 companies that have been conducted over the course of the past few years **Incertidumbres en las sociedades contemporáneas** Ramos Torre, Ramón, García Selgas, Fernando J., 2020-08-31 La incertidumbre parece omnipresente en el mundo social contemporáneo y más en esta coyuntura pandémica Era patente ya en los mercados financieros la tecnociencia el cambio climático o las nuevas formas de vulnerabilidad No puede extrañar por tanto que haya diagnósticos sociológicos muy diversos Bauman Luhmann Beck Wynne etc que la presentan como uno de los rasgos distintivos de nuestro mundo Carecemos sin embargo de una reflexión suficientemente detallada y sistemática sobre su papel en las sociedades contemporáneas Esta obra pretende contribuir a llenar ese vacío Con ese fin los primeros capítulos revisan el campo semántico en el que esos diagnósticos sitúan la incertidumbre entre una forma de no saber y un saber que muestra las grietas de lo que se daba por cierto y su tensa relación con la certeza la indeterminación y la supervivencia El resto de los trabajos analizan la gestión de la incertidumbre en situaciones concretas como la valorización financiera la investigación aeroespacial el terrorismo yihadista la intervención social el Big data la naturaleza la responsabilidad social de las empresas o

L'innovation managériale Chaire ESSEC Innovation managériale et Excellence opérationnelle, Kévin Johnson, Jean-Michel Moutot, David Autissier, 2018-01-18 La société et le monde de l'entreprise vivent aujourd'hui un point de bascule entre les fonctionnements hérités du monde industriel et ceux en cours de construction qui se veulent plus collaboratifs Les entreprises sont de plus en plus nombreuses à rechercher de nouveaux modèles de management pour répondre ces attentes C'est ce que propose cet ouvrage qui synthétise l'innovation managériale Cette notion ne doit pas se voir comme un outil universel mais comme une démarche de transformation des modes de

management de manière durable et sans rupture. À la fois théorique et pratique, cet ouvrage est structuré en deux parties. La première développe les nouvelles manières de travailler en abordant différentes techniques de développement de design réseaux apprenants, design thinking, ateliers participatifs, etc. La seconde explore les différentes facettes de l'innovation managériale à travers dix études de cas où une transformation a été accomplie. Grâce à leurs analyses, les auteurs donnent aux lecteurs les clés pour mettre en pratique de nouveaux modes de fonctionnement afin que l'innovation soit toujours au cœur des entreprises.

Avis de la commission des affaires culturelles sur le projet de loi de finances pour 2016 ; Recherche et enseignement supérieur : Enseignement supérieur et vie étudiante Anne-Christine LANG, 2015-10-08. Le patrimoine immobilier des universités. Dans le contexte de l'augmentation des flux de nouveaux étudiants, la rapporteure pour avis a consacré ses travaux au patrimoine immobilier des universités, qui représente un important défi financier pour l'enseignement supérieur. Si elle apparaît que la taille globale de ce patrimoine est suffisante pour accueillir ces nouvelles vagues d'étudiants, sa qualité contraste avec les deux cinquièmes des bâtiments dans un état de dégradation inquiétante et un dixième franchement préoccupant, nécessitant en effet de lourds efforts de remise à niveau et d'entretien qui peuvent atteindre des montants de l'ordre d'un milliard d'euros par an. Or, les investissements actuels, qu'il s'agisse des subventions aux universités, des contrats de plan régional ou des grands projets, ne couvrent que les deux tiers de ce montant. Au-delà de l'indispensable participation de l'enseignement supérieur aux troisième programme des investissements d'avenir, la rapporteure pour avis juge d'avis que les universités se dotent rapidement d'une stratégie immobilière insparable de leur stratégie de formation et de recherche, et acquièrent les réflexes de bon gestionnaire qu'impose un patrimoine aussi vaste. Cette stratégie doit prendre en compte les évolutions pédagogiques et cognitives en cours. Elle doit mieux valoriser les atouts des universités, notamment grâce à une meilleure insertion dans la formation professionnelle. Pour celles qui sont le plus avancées dans cette direction, il serait en outre utile de tendre la dévolution du patrimoine aujourd'hui limitée à trois universités, qui apparaît efficace bien qu'elle soit onéreuse pour l'état. La rapporteure pour avis suggère de poursuivre cette expérimentation au bénéfice d'abord des universités qui ont su se regrouper dans des

communautés et qui s'attachent mettre en commun les outils d'une gestion immobilière de qualité

Avis de la commission des affaires culturelles sur le projet de loi de finances pour 2016 ; Enseignement scolaire Barbara POMPILI, 2015-10-08

La loi de la refondation Plus de deux ans après l'adoption de la loi de refondation de l'école la rapporteure pour avis a consacré ses travaux la mission d'inclusion assignée par cette loi à l'éducation nationale. Le système scolaire français prouve de très fortes difficultés prendre en compte et vaincre les difficultés d'apprentissage des élèves besoins éducatifs particuliers enfants en situation de handicap précoces DYS grande difficulté familiale ou sociale allophones familles itinérantes et voyageurs. Dans ce contexte l'inclusion scolaire ne se limite ainsi pas la présence physique de l'élève aux besoins particuliers dans l'école ordinaire première étape incontournable en bonne voie de franchie dans le sillon tracé par la loi de 2005 sur le handicap. Elle implique en effet de donner tous les élèves de réelles chances de progresser en mobilisant toutes les ressources que l'école ordinaire peut mettre en place pour favoriser l'apprentissage et la socialisation dans une démarche nécessairement individualisée dont l'actuelle majorité a su forger les instruments au travers des nouveaux parcours personnalisés PPS PAP PPR etc. Mais l'école inclusive va plus loin encore exigeant de dépasser l'objectif traditionnel d'intégrer l'enfant affecté de handicaps ou de troubles au cadre scolaire en tendant vers une inclusion pleine et entière dans la classe ordinaire. Pour y parvenir des progrès doivent être accomplis pour que tous les acteurs sachent coordonner leurs efforts et partager leurs compétences au service de la continuité des apprentissages en lien étroit avec les parents. Surtout les enseignants garants de l'enseignement doivent être mieux formés et mieux accompagnés dans cette dimension décisive de leur métier. Le rapport pour avis présente en conséquence de nombreuses propositions opérationnelles allant du rétablissement des dispositifs spécialisés RASED ULIS IME unités d'enseignement notamment autisme etc et de la prérenseignement d'au moins 75 000 accompagnants des enfants handicapés à l'institution dans chaque département d'un pôle et la désignation dans chaque école d'un maître ressources inclusion faisant travailler en commun tous les acteurs et les parents d'élèves. Il propose également de tendre la place de l'enseignement de l'inclusion dans la formation initiale et continue des enseignants en développant notamment le concours en fin de licence.

Avis de la commission des affaires culturelles sur le projet de loi de finances pour 2016 ; Recherche et enseignement supérieur : Recherche Sophie DION, 2015-10-08

Le sport et la recherche La recherche la plus dynamique se fait souvent aux frontières aux interfaces. Le choix d'un thème transversal permet d'étudier la façon dont peuvent se fédérer et se coordonner les activités des nombreux organismes sur lesquels se fonde la recherche en France. La recherche sur le sport reste un domaine encore insuffisamment identifié. Elle est par nature interdisciplinaire et donc implique un dépassement des classifications statistiques et budgétaires habituelles. Mais cette transversalité permet aussi d'illustrer plus largement les forces et les faiblesses de la recherche en France elle obtient des résultats excellents mais leur valorisation tant académique que pratique reste souvent très en de des possibilités qu'ils ouvrent. Outre les impacts classiques en matière de transfert de technologie de création de start-up ou de jeunes entreprises

innovantes de partenariats de recherche ou de financement de chercheurs qui caractérisent aussi l'ensemble des autres recherches académiques la recherche sur le sport assume un rôle direct de dynamisation et de structuration d'un secteur économique suffisamment vaste pour mériter une meilleure approche Il convient donc de se demander s'il ne serait pas nécessaire de mieux prendre en compte le sport en tant que champ de recherche partiellement en en faisant un défi pour la recherche partiellement anticipant par là une nécessité d'alignement plus précise des autres défis de recherches stratégiques et de leurs financements publics ou contractuels tels qu'ils ont été définis au début de l'année 2015 comme axes de la nouvelle stratégie nationale de recherche
