residents who are settling in their local communities This book analyzes the development of local citizenship in Japan by examining the role of local governments and NGOs as well as grass roots political and judicial activism in the expansion of immigrant rights In this manner localities are emerging as important sites for the struggle for immigrant citizenship and social integration enabling foreign workers to enjoy substantive rights even in the absence of national citizenship The possibilities and limits of such local citizenship in Japan are then compared to three other recent countries of immigration Italy Spain and South Korea
