Meanwhile, Boq and Nessarose were -

AN OZIAN
(interrupting)
Wait, how were you even there?

GLINDA
I wasn't. But don't you want to
hear about - ?

ANOTHER OZIAN
No-one gives a shit about Boq.

GLINDA
You don't want to hear where the
Tin Man came from?

OZIAN
No. His story doesn't go anywhere.

ANOTHER OZIAN
Zero effect on the plot.

GLINDA
Wait 'til you hear my Cowardly Lion
storyline. Boq will seem like Jean
Valjeanikin.

AN OZIAN
It does seem odd for you to include
all this secondary character stuff,
Glinda.

ANOTHER OZIAN

and Fiyero do each other on the
grass. That sounded hot.

What is a screenplay Is the screenplay art more specifically literature What kind of a thing is a screenplay Nannicelli argues that the screenplay is a kind of artefact as such its boundaries are determined collectively by screenwriters and its ontological nature is determined collectively by both writers and readers of screenplays Any plausible philosophical account of the screenplay must be strictly constrained by our collective creative and appreciative practices and must recognize that those practices indicate that at least some screenplays are artworks

A Contemporary Study of Musical Arts Vol. 1 Meki Nzewi, 2007-12 Volume 1 The Root Foundation Modern literacy education in African music has hitherto focused more on observed context studies The

philosophical rooting and the psychological and therapeutic force that ground African indigenous musical arts have not been much discerned or integrated. Much needed in contemporary education then are integrative studies and literature materials that represent the intellectual base of the knowledge owners and creators and which will ensure cognitive understanding of the indigenous musical arts systems of Africa. There is as yet no comprehensive learner centred book that fosters African indigenous knowledge perspectives and rationalisation about the musical arts. The concern over the years has been for the production of research informed books for modern systematic education in African musical arts that derive in essence from the original African intellectual perspectives about the sense and meaning of music indigenous to contemporary Africa. The five volumes of the musical arts study series derive from 36 years of research and analytical studies in African musical arts. The volumes address the pressing need for learning texts informed by the indigenous African musical arts systems that target tertiary education. The texts incorporate knowledge of conventional European classical music as they relate to the unique features of African musical arts thinking and theoretical content. The contemporary African musical arts specialist needs secure grounding in his/her own human cultural knowledge authority in order to contribute with original intellectual integrity to African as well as global scholarship discourse and knowledge creation.

A Critical History of New Music in China

Liu Chingchih, 2010-07-20. By the end of the nineteenth century after a long period during which the weakness of China became ever more obvious, intellectuals began to go abroad for new ideas. What emerged was a musical genre that Liu Chingchih terms New Music. With no direct ties to traditional Chinese music, New Music reflects the compositional techniques and musical idioms of eighteenth, nineteenth and early twentieth century European styles. Liu traces the genesis and development of New Music throughout the twentieth century, deftly examining the cultural, social and political forces that shaped New Music and its uses by politicians and the government.
