BC AD (English edition). Benthem Crouwel 1979-2009 ,2010 Zionism and its Discontents Ran

Greenstein,2014-10-20 Mainstream nationalist narratives and political movements have dominated the Israeli Palestinian situation for too long In this much needed book Ran Greenstein challenges this hegemony by focusing on four different but at the same time connected attempts which stood up to Zionist dominance and the settlement project before and after 1948 Greenstein begins by addressing the role of the Palestinian Communist Party and then the bi nationalist movement before moving on to the period after 1948 when Palestinian attempts to challenge their unjust conditions of marginalisation became more frequent Finally he confronts the radical anti Zionist Matzpen group which operated from the early 1960s 80s In addition to analyses of the shifting positions of these movements Greenstein examines perspectives regarding a set of conceptual issues colonialism and settlement race ethnicity and class and questions of identity rights and power and how such as in the case of South Africa these relations should be seen as global Migration and Marriage in Asian Contexts

Zheng Mu,Wei-Jun Jean Yeung,2021-11-29 This book analyses how Asian migrants adapt and assimilate into their host societies and how this assimilation differs across their sociodemographic backgrounds ethnic profiles and political contexts The diversities in Asian migrants assimilation trajectories challenge the assumption that given time migrants will eventually integrate holistically into their host societies This book captures the diverse patterns and trajectories of assimilation by going beyond marriage migration to look at how family formation processes are shaped by migration driven by reasons other than marriage Using quantitative qualitative and mixed method analyses not only does this book uncover the nuances of the link between marriage and migration but it also widens methodological repertoires in research on marriage and migration It also captures various social outcomes that may have been influenced by migration including migrants economic well being cultural assimilation subjective well being and gender inequality vis vis marriages This book further embeds the studies in the Asian contexts by drawing on individual countries unique policies relevant to cross cultural marriages the persistent impacts of extended families the patriarchal traditions and systems of religion and caste The chapters in this book were originally published as a special issue of the Journal of Ethnic and Migration Studies **Inarticulacy in Creative Writing**

The Gospel According to Philip Martha Turner,2020-10-26 Study of the Gospel according to Philip an important gnostic Christian text has been hampered by unresolved questions about the unity genre and sectarian contexts of the work This book argues that terms of self designation use of controversial vocabulary style hermeneutic strategies and theological commitments together present persuasive evidence of derivation from multiple sectarian milieux The document s organizing principles are found to be in accord with the excerpting and collection practices of Late Antiquity The coherence of the text lies in its compiler s distinctive interests and choices not in the uniformity of its materials The persuasive case made by this book will help to advance research on this significant document of early Christianity **Road to MNC**
