La gestion des talents - 2e éd. Cécile Dejoux, Maurice Thévenet, 2015-09-09 La gestion des talents est une thématique qui s'impose depuis quelques années en Gestion des Ressources humaines en réponse aux limites de l'approche par compétences. Dans un contexte de crise économique, les entreprises cherchent à développer une approche plus individuelle et personnelle en se concentrant sur la recherche de talents, ces personnes aux compétences spécifiques ou rares qui créent davantage de valeur ajoutée. Aussi est-il essentiel pour les organisations d'identifier les talents dont elles ont besoin aujourd'hui et demain de mettre en œuvre les meilleures politiques pour les attirer et les valoriser tout en les fidélisant. Cet ouvrage propose un état des lieux des fondements théoriques de la notion de talents ainsi que des méthodes et outils pour rendre opérationnelle la notion de talent. Cette deuxième édition sera enrichie de deux nouveaux chapitres sur les pratiques innovantes de gestion des talents et sur la gestion des talents libre numérique.

Talent Management Cécile Dejoux, Maurice Thévenet, 2012-01-11 Talent Management could very soon replace traditional Human Resource Management within companies. This book explores this new concept and questions the progressive drift from one notion to the other. Talent is a unique combination of various outstanding skills. Companies are doing their best to attract, retain and make talents effective in the turbulent context of business in a global economy. The book provides the cultural and business context of talent. After exploring what talent management concretely means in terms of policies and practices, the HR professional and the scholar will have a clear picture of the potential opportunities and limits of talent management.

Cultural Intelligence in the 21st Century Stephan M. Branch, 2023-11-21 Discover how leadership, cultural intelligence and inclusion coalesce to create preeminent global leaders and organizations while driving revenue, inclusion and ESG. If you are a CEO, global leader or part of a global organization, you can revolutionize every part of your business by raising your cultural intelligence. *Cultural Intelligence in the 21st Century* explores nine crucial cultural competencies that will transform every part of your business, including how you drive inclusion, revenue and ESG; how you lead global teams for better results; how you increase sales and operational performance; how you communicate across cultures; how you build relationships and trust in other countries. In recent years, organizations have become fixated on raising Environmental, Social and Governance (ESG) because they recognize that the Millennial and Z generations are largely focused on investing in companies that better align with their personal philosophies. Global 2000 companies know this and are redirecting much of their focus to ESG in order to make their organizations more attractive to employees and investors. The S in ESG isn't only about social equity; it's about understanding the importance of how other countries conduct business. Did you know you can solve both at the same time while having a transformative financial impact on your organization? How can you build a globally inclusive culture in an organization where everyone feels seen, heard and respected if you don't understand how cultures communicate, build relationships and trust, and show respect differently? You can learn the cultural competencies to do business in other countries in order to create a more inclusive

environment within a global organization which qualifies as a metric within the ESG rating Cultural Intelligence in the 21st Century gives you the competencies you need to do this *Ressources humaines* Jean-Marie Peretti, 2015-12-16 Facteur clé de succès essentiel aujourd'hui le management des ressources humaines doit concilier performance économique et sociale rentabilité court terme et développement durable Cette nouvelle édition entièrement refondue propose une vision concrète et actuelle au plus près des besoins des entreprises et des étudiants *Valorisez votre marque employeur ! L'envie, une stratégie Olivier Bas, 2015-02-18 L'envie est un puissant remède contre le défaitisme et le repli sur soi. Un antidote au pessimisme trop largement répandu. Osez une stratégie de l'envie : c'est répondre des questions essentielles. Comment les dirigeants peuvent-ils régner ? L'envie des salaires. Comment la communication peut-elle contribuer sincèrement de l'enthousiasme ? Comment aider les managers fabriquer de l'optimisme ? Comment les DRH doivent-ils repenser leurs pratiques pour raviver l'envie de bonheur qui sommeille en toute entreprise ? Est-ce une utopie ? Un doux rêve ? Nous avons le pouvoir de faire percevoir aux autres, au-delà des heurts, les bonheurs de leur vie professionnelle, de stimuler leur optimisme, de leur donner envie d'aller de l'avant, de s'engager et de réussir. Nous pouvons tous contribuer à faire de l'entreprise une communauté de succès. Je suis convaincu que les entreprises comprendront un jour que la productivité dépend de l'humeur, que l'efficacité est aussi une affaire d'enthousiasme, que le plaisir et la performance sont faits pour s'entendre. J'aimerais que vous acceptiez d'y croire avec moi, alors j'ai écrit ce livre.

Management transversal de la marque Géraldine Michel, 2013-09-11 La marque est aujourd'hui bien plus qu'un outil commercial : elle fédère les acteurs de l'entreprise autour d'un même objectif, en donnant du sens à l'action et une vision long terme. Cet ouvrage novateur a tenté dans une volonté de décloisonner le management de la marque dans les organisations et ainsi favoriser l'innovation, donc la pérennité des entreprises. La parole est donnée des experts de la marque qui proviennent d'horizons différents : la stratégie, le marketing, la psychologie sociale, les ressources humaines, la finance, le contrôle de gestion et le droit. La multidisciplinarité, ainsi que la diversité des marques analysées, forte notoriété ou plus confidentielles, des secteurs du B to C ou du B to B, apportent les éléments nécessaires à une gestion de la marque plus intégrée et plus globale.
