Total Loss Farm A Year In The Life:

Total Loss Farm: A Year in the Life Raymond Mungo, 2014-06-01 In making her selection for Pharos Editions Dana Spiotta tells us how drawn she was by the work of Raymond Mungo He writes about his own joy and his own pain he is particularly good when he describes the land around him and how it feels on his body Indeed if Henry David Thoreau had downed a handful of liberty caps before penning *Walden* it would have read much like Mungo's *Total Loss Farm* a rollicking memoir of the late 1960s back to the earth movement Written in a limber prose style formed by the tempo of the times Mungo takes us into the cultural tsunami of a failed radical politics as it broke on the shoals of a drug fueled personal freedom and washed inland across the farmlands of Vermont leaving a trail of damage and redemption in its wake *Total Loss Farm* attracted widespread critical and commercial attention in 1970 when the back to the land hippie commune movement first emerged The book's first section *Another Week on the Concord and Merrimack Rivers* appeared as the cover article in the May 1970 issue of *Atlantic Monthly* The hardcover first edition from Dutton was quickly followed by paperback editions from Bantam Avon and Madrona Publishers keeping the book in print for several decades Very recently Dwight Garner in the *New York Times Book Review* cited *Total Loss Farm* as the best and also the loopyest of the commune books **My**

Generation John Downton Hazlett, 1998 John Hazlett's engaging study of writers from the 1960s demonstrates the ways in which the idea of the generation has affected autobiographical writing in this century Autobiographers from the sixties claim to speak on behalf of all members of their generation However each writer presents a unique political and personal agenda

Going Up the Country Yvonne Daley, 2018-06-05 *Going Up the Country* is part oral history part nostalgia tinged narrative and part clear eyed analysis of the multifaceted phenomena collectively referred to as the counterculture movement in Vermont This is the story of how young migrants largely from the cities and suburbs of New York and Massachusetts turned their backs on the establishment of the 1950s and moved to the backwoods of rural Vermont spawning a revolution in lifestyle politics sexuality and business practices that would have a profound impact on both the state and the nation The movement brought hippies back to the landers political radicals sexual libertines and utopians to a previously conservative state and led us to today's farm to table way of life environmental consciousness and progressive politics as championed by Bernie Sanders

At Home in Nature Rebecca Kneale Gould, 2005-10-24 Motivated variously by the desire to reject consumerism to live closer to the earth to embrace voluntary simplicity or to discover a more spiritual path homesteaders have made the radical decision to go back to the land rejecting modern culture and amenities to live self sufficiently and in harmony with nature Drawing from vivid firsthand accounts as well as from rich historical material this gracefully written study of homesteading in America from the late nineteenth century to the present examines the lives and beliefs of those who have ascribed to the homesteading philosophy placing their experiences within the broader context of the changing meanings of nature and religion in modern American culture Rebecca Kneale Gould investigates the lives of famous figures such as

Henry David Thoreau John Burroughs Ralph Borsodi Wendell Berry and Helen and Scott Nearing and she presents penetrating interviews with many contemporary homesteaders She also considers homesteading as a form of dissent from consumer culture as a departure from traditional religious life and as a practice of environmental ethics **Ideology and Rhetoric** Bożenna Chylińska,2009-01-14 The discovery of America and its further development into a modern state and a nation are the clear instance of how ideology and rhetoric are entwined and how they can encompass widely disparate viewpoints The essays collected in this book address the topical issues of modern American Studies cultural difference and otherness gender race and ethnicity class and power They represent new texts and contexts approached through the revision reevaluation and reconfiguration of canons thus accommodating the expectations of the heterodox audience Femininity reconsidered an ideology of passing away in contemporary world of technical development race captured within the framework of identity and gender the rhetoric of blackness approached through racial exploitation American conquest ideology revealed in a mission of Manifest Destiny the 20th century assimilation rhetoric in the relations between Native Americans and the US federal government the conservative ideology and apologetic rhetoric of the Antebellum South the critique of the 21st century American legal system the evolution of the presidential rhetoric which today addresses a large heterogeneous audience all these topics impose a transnational interpretation of American culture which developed as a result of the cross cultural transformation of European culture cultures moulded on American soil to finally become a unique reformulation of the very idea of America itself **Getting Loose** Sam Binkley,2007-04-27 Examines the changing character of American consumer culture in the 1960s 70s and late 20th century generally driven by changing forms of identity notably a loosening of the self by which Binkley means to evoke a wide range of identity pr The 60s Communes Timothy Miller,2015-02-01 The greatest wave of communal living in American history crested in the tumultuous 1960s era including the early 1970s To the fascination and amusement of more decorous citizens hundreds of thousands of mostly young dreamers set out to build a new culture apart from the established society Widely believed by the larger public to be sinks of drug ridden sexual immorality the communes both intrigued and repelled the American people The intentional communities of the 1960s era were far more diverse than the stereotype of the hippie commune would suggest A great many of them were religious in basis stressing spiritual seeking and disciplined lifestyles Others were founded on secular visions of a better society Hundreds of them became so stable that they survive today This book surveys the broad sweep of this great social yearning from the first portents of a new type of communitarianism in the early 1960s through the waning of the movement in the mid 1970s Based on more than five hundred interviews conducted for the 60s Communes Project among other sources it preserves a colorful and vigorous episode in American history The book includes an extensive directory of active and non active communes complete with dates of origin and dissolution Statistics of Income ,1982 **The End of Culture** Kingsley Widmer,1975 These linked essays concern both the ominous failings and the proper libertarian purposes of

contemporary American culture Presenting recent cultural expression as part of a larger dialectic the argument turns about conflicts between processed and rebellious culture between the anti sensibility of technocracy and other institutional domination and the insufficient sensibility of preservative humanistic intelligence and art Pursuing the politics of culture this aesthetic sociology examines such issues as the effects of technological communications structural censorship the waste ethos and some liberal ideologies A group of essays analyzes the contradictory aesthetics and ethics of recent movements of cultural rebellion Other essays examine representative cultural inadequacies including some fashionable modes of literature sociology and higher education Libertarian social cultural critics including Paul Goodman and Herbert Marcuse are sympathetically criticized Through a number of essays a contentiously libertarian view of our cultural possibilities is sketched Originally published in 1975 Annual Report of the Department of Agriculture for the Year Ending ...
