Black Athena: The Afroasiatic Roots of Classical Civilization Volume I Martin Bernal,2020-02-14 Winner of the 1990 American Book Award What is classical about Classical civilization In one of the most audacious works of scholarship ever written Martin Bernal challenges the foundation of our thinking about this question Classical civilization he argues has deep roots in Afroasiatic cultures But these Afroasiatic influences have been systematically ignored denied or suppressed since the eighteenth century chiefly for racist reasons The popular view is that Greek civilization was the result of the conquest of a sophisticated but weak native population by vigorous Indo European speakers Aryans from the North But the Classical Greeks Bernal argues knew nothing of this Aryan model They did not see their institutions as original but as derived from the

East and from Egypt in particular In an unprecedented tour de force Bernal links a wide range of areas and disciplines drama poetry myth theological controversy esoteric religion philosophy biography language historical narrative and the emergence of modern scholarship
