Guidelines for Tourism in Parks and Protected Areas of East Asia Paul F. J. Eagles, 2001

The IMLI Treatise On Global Ocean Governance David Joseph Attard, Malgosia Fitzmaurice, Alexandros Ntovas, 2018-07-04 The 1982 United Nations Convention on the Law of the Sea UNCLOS remains the cornerstone of global ocean governance However it lacks effective provisions or mechanisms to ensure that all ocean space and related problems are dealt with holistically With seemingly no opportunity for revision due to the Conventions burdensome amendment provisions complementary mechanisms dealing with such aspects of global ocean governance including maritime transport fisheries and marine environmental sustainability have been developed under the aegis of the United Nations and other relevant international organizations This approach is inherently fragmented and unable to achieve sustainable global ocean governance In light of the Sustainable Development Goals SDGs particularly Goal 14 the IMLI Treatise proposes a new paradigm on the basis of integrated and cross sectoral approach in order to realise a more effective and sustainable governance regime for the oceans This volume focuses on the role of the UN Specialized Agencies towards the development of effective and sustainable ocean governance by looking at the more elaborate mechanisms they

developed in order to achieve the desired objectives laid down in UNCLOS From FAO to UNODC the volume examines how they ensure sustainable development and how much coordination exists among them European Journal of Tourism Research ,2016-03-01 The European Journal of Tourism Research is an interdisciplinary scientific journal in the field of tourism published by Varna University of Management Bulgaria Its aim is to provide a platform for discussion of theoretical and empirical problems in tourism Publications from all fields connected with tourism such as management marketing sociology psychology geography political sciences mathematics statistics anthropology culture information technologies and others are invited The journal is open to all researchers Young researchers and authors from Central and Eastern Europe are encouraged to submit their contributions Regular Articles in the European Journal of Tourism Research should normally be between 4 000 and 20 000 words Major research articles of between 10 000 and 20 000 are highly welcome Longer or shorter papers will also be considered The journal publishes also Research Notes of 1 500 2 000 words Submitted papers must combine theoretical concepts with practical applications or empirical testing The European Journal of Tourism Research includes also the following sections Book Reviews announcements for Conferences and Seminars abstracts of successfully defended Doctoral Dissertations in Tourism case studies of Tourism Best Practices The European Journal of Tourism Research is published in three Volumes per year The full text of the European Journal of Tourism Research is available in the following databases EBSCO Hospitality and Tourism CompleteCABI Leisure Recreation and TourismProQuest Research Library Individual articles can be rented via journal s page at DeepDyve The journal is indexed in Scopus and Thomson Reuters Emerging Sources Citation Index The editorial team welcomes your submissions to the European Journal of Tourism Research *Risk and Safety Management in the Leisure, Events, Tourism and Sports Industries* Mark Piekarz,Ian Jenkins,Peter Mills,2015-09-02 The management of risk and safety is not simply a matter of trying to remove risks but is necessary and vital to these industries Sensible risk management is concerned with making the most of the positive opportunities or reducing the negative risks This books shows how the absence of explicit risk practices is not necessarily an absence of risk management and how many existing operational and strategic practices can be understood as part of a process of risk and safety management Its main objective is to develop greater clarity in the communication of risks and the development of safety programmes illustrating how organisations can use a single language of risk relevant for all levels of management and areas of operation *Quantitative Methods in Tourism* Rodolfo Baggio,Jane Klobas,2017-07-06 In this revised second edition Baggio and Klobas build upon the work of their previous volume offering a presentation of quantitative research methods for tourism researchers This accessible and rigorous guide goes beyond the approaches usually covered in introductory textbooks on quantitative methods to consider useful techniques for statistical inquiry into tourism matters of all but the most econometrically complex kind The first part of the book concerns common issues in statistical analysis of data and the most widely used techniques while the second part describes and discusses several newer

and less common approaches to data analysis that are valuable for tourism researchers and analysts Updates to the second edition include a new chapter on Big Data consideration of data screening and cleaning the use of similarity and diversity indexes for comparing samples observations about the partial least squares PLS approach to path modelling a new section on multi group structural equation modelling a new section on common method variance and its treatment revised and updated section on software fully updated references and examples *Tourism and Resilience* Susan L Slocum,Carol

Kline,2017-06-09 This is the first book to address the concept of resilience and its specific application and relevance to tourism in particular tourism destinations Resilience relates to the ability of organisms communities ecosystems and populations to withstand the impacts of external forces while retaining their integrity and ability to continue functioning It is particularly applicable to tourism destinations and attractions which are exposed to the potentially harmful and sometimes severe effects of tourism development and visitation but which also can experience increased resilience from the economic benefits of tourism Tourism and Resilience is relevant for researchers students and practitioners in tourism and related fields such as development studies geography sociology anthropology economics and business management Phenomena such as destination communities wildlife populations and ecosystems are discussed as well as the ability of places and communities to use tourism and its infrastructure to recover from disasters such as tsunamis earthquakes unrest and disease *Cutting Edge Research Methods in Hospitality and Tourism* Fevzi Okumus,S. Fennell,Chris Cooper,2020-01-30 This new textbook provides a comprehensive overview of sustainable tourism framed around the UN s sustainable development goals It examines the origins and dimensions of sustainable tourism and offers a detailed account of sustainable initiatives and management across destinations the tourism industry public sector and leading agencies The book explores the principal values and priorities in sustainable development through a better understanding of values ethics and human nature It covers a broad range of studies from an array of disciplinary perspectives and includes learning objectives discussion questions and international case studies throughout It is an important text for students and researchers in tourism and sustainability **Human Rights Standards and the Responsibility of Transnational Corporations** Michael K.

Addo,1999-09-01 What is the nature and scope of corporate responsibility with regard to human rights Should companies themselves be responsible for human rights violations involving themselves or their subsidiaries What principles should guide business in countries known to violate human rights Is self regulation sufficient or are corporations best regulated by

national or international codes and on what should these codes be based These are some of the many questions which this ground breaking collection of essays seeks to address as it assesses the value of applying human rights standards to transnational corporations The increasing involvement of corporations in the public domain and the steady reduction of governmental involvement in commercial and social undertakings has created a desperate need to rethink the nature and role of the private corporation and its regulation This volume which contains a balanced collection of analyses from all interested sources in the corporate responsibility debate is the result of a three day conference during which government officials corporate executives NGOs and representatives of inter governmental organisations as well as academic researchers came together for the first time to discuss the emerging issues The essays have been arranged under six broad themes policy issues regulation issues of application matters of doctrine globalisation and case studies In addition each section contains the opinion not simply a summary of proceedings of a nominated rapporteur who draws together the strands of each theme and where necessary broadens the analysis to cover important issues which may not have been addressed At the heart of this volume is the attempt to define an effective framework for transnational corporate responsibility through international human rights standards It will be of vital interest to corporate legal advisers human rights practitioners NGOs government law offices and academics as well as to all those concerned with human rights and their place in the modern world
