Elephant Tourism in Nepal Michelle Szydlowski, 2024-02-01 A study of elephant tourism in Nepal from its origins in the 1960s to the present day this book examines the challenges faced by captive elephants. Used as human conveyance on anti poaching patrol teams as rescue vehicles and in forestry service elephants have worked with and for humans for hundreds of years. However the use of elephants in tourism is a fairly new development within Nepal. Because the health and welfare of tourism elephants is vital to the conservation of wild individuals this book offers an assessment of captive elephant needs and an examination of their existing welfare statuses. This book seeks to examine the motivations of these NGOs and INGOs and to consider their ethical approaches to elephant health and welfare. Are the motivations of these organizations similar enough to work together towards a common goal or are their ethical norms so different that they get in one another's way? Using an ordinary language and ethics framework this text aims to identify the norms of cultures and organisations and reframe them in ways which may allow for more successful interactions.
