This book examines the global scope of tourism-related grabbing of land and other natural resources. Tourism is often presented as a peaceful and benevolent sector that brings people from different cultural backgrounds together and contributes to employment, poverty alleviation and global sustainable development. This book sheds light on the lesser-known and much darker side of tourism as it unfolds in the Global South. While there is no doubt that tourism has been an engine of economic growth for many so-called developing countries, this has often come at the cost of widespread dispossession and displacement of Indigenous and non-Indigenous communities. In many countries of the Global South, tourism development is increasingly prioritised by governments, businesses, international financial institutions and donors over the legitimate land and resource rights of local people. This book examines the actors, drivers, mechanisms, discourses and impacts of tourism-related land grabbing and displacement, drawing on more than thirty case studies from Latin America and the Caribbean, sub-Saharan Africa, South and Southeast Asia, the Middle East and the Southwest Pacific. The book provides solid grounds for an informed debate on how different actors are responsible for the adverse impacts of tourism on land rights infringements, what forms of resistance have been deployed against tourism-related land grabs and displacement, and how those who have violated local land and resource rights can be held accountable. **Tourism, Land Grabs and Displacement** will be essential reading for students and scholars of land and resource grabbing, tourism studies, development studies and sustainable development, more broadly, as well as policymakers and practitioners working in those fields. Collaborative Economy and Tourism Dianne Dredge, Szilvia Gyimóthy, 2017-05-30. This book employs an interdisciplinary, cross-sectoral lens to explore the collaborative dynamics that are currently disrupting, re-creating and transforming the production and consumption of tourism. House swapping, ridesharing, voluntourism, couchsurfing, dinner hosting, social enterprise and similar phenomena are among these collective innovations in tourism that are shaking the very bedrock of an industrial system that has been traditionally sustained along

commercial value chains To date there has been very little investigation of these trends which have been inspired by amongst other things de industrialization processes and post capitalist forms of production and consumption postmaterialism the rise of the third sector and collaborative governance Addressing that gap this book explores the character depth and breadth of these disruptions the creative opportunities for tourism that are emerging from them and how governments are responding to these new challenges In doing so the book provides both theoretical and practical insights into the future of tourism in a world that is paradoxically becoming both increasingly collaborative and individualized

Return to the Shadows Alison Pargeter, 2016-09-22 The Arab Spring heralded a profound shift in the Middle East bringing to power Islamist movements which had previously been operating in the shadows The Muslim Brotherhood stormed to victory in Egypt and emerged as a key player in Libya s nascent political arena Meanwhile An Nahda found itself catapulted into power as the head of Tunisia s coalition government For a while it looked as though the region was entering the dawn of a new Islamist age But navigating their respective countries through difficult and painful transitions ultimately proved too challenging for these forces and just as suddenly the Brotherhood was dramatically overthrown in Egypt and left severely weakened in Libya In Tunisia An Nahda managed to pull itself through the crisis but its failure to articulate and deliver the hopes and aspirations of a large section of Tunisian society damaged its credibility In this authoritative account Alison Pargeter expertly charts the Islamists ascent and subsequent fall from power Based on extensive research and interviews with high ranking members of the Brotherhood and An Nahda Pargeter offers a comparative analysis of the movement in North Africa since the Arab Spring and outlines the consequences of the Brotherhood s decline on both the region and the wider Islamist political project

Cruise Tourism in the Caribbean Martha Honey, 2019-06-17 This book explores the lessons learned from half a century of Caribbean cruise tourism one of the most popular and profitable sectors of the tourism industry The modern day cruise industry dates from the 1960s when the three major cruise lines Carnival Royal Caribbean and Norwegian set up shop in Florida and began selling winter cruises to the Caribbean targeting American retirees For geopolitical reasons the US initially excluded cruises to Cuba This changed in 2016 following the historic Obama Castro agreement to move towards diplomatic trade and travel normalization Cuba quickly became the Caribbean s fastest growing cruise destination This book considers the limited economic benefits of cruise tourism its environmental and social impacts and the effects of climate change and overtourism Based on this analysis and case studies of key Caribbean and Mediterranean destinations this book cautions against overdependence on cruise tourism and outlines reforms needed to bring more benefits and equity to Caribbean countries It will be valuable to professionals businesses development agencies NGOs and academics interested in a sustainable cruise industry and the economic well being of Caribbean island nations

Commercial Uses of Space and Space Tourism Jan Wouters, Philip De Man, Rik Hansen, 2017-12-29 Commercial Uses of Space and Space Tourism combines the perspectives of academics policy makers and major industry players around three central themes connected to commercial spacefaring the

international legal challenges posed by the dramatic changes to the spacefaring landscape through privatisation and commercialisation the corresponding legal and regulatory responses to these challenges at the national level and related topical questions of global space governance **Jamaica** International Monetary Fund. Dept.,2014-12-23 Discussions centered on the preparations for the 2015 16 budget and reforms to strengthen the financial sector and boost growth The authorities have deepened their efforts in supporting their ambitious fiscal goals by strengthening public financial management and revenue administration and they reiterated their resolve to continue containing the wage bill Steps have also been identified to advance the reform of the securities dealers and to increase the resilience of the financial system **Marine Transboundary Conservation and Protected Areas** Peter

Mackelworth,2016-04-28 The marine environment does not naturally respect arbitrary international boundaries The establishment and management of transboundary marine protected areas therefore presents major governance challenges This book analyses a series of marine transboundary conservation initiatives embedded in varying contextual situations to examine the underlying reasons for their success or failure Utilising an adapted pathways of influence framework it provides insights into the development of marine transboundary conservation initiatives looking at the effectiveness of international rules international norms and discourse market forces and direct access to policy making Examples come from a wide range of jurisdictions including territorial seas continental shelves exclusive economic zones and areas beyond national jurisdiction Case studies include initiatives in the Coral Triangle West Africa Central America the Wadden Sea the Red Sea and the Mediterranean Sea In addition the authors assess the potential for developing wider international cooperation as a result of relationships forged through involvement within these marine transboundary conservation initiatives **Human rights and**

democratic governance in Kenya: A post-2007 appraisal John Osogo Ambani,Nicholas Wasonga Orago,Ochieng Walter Khobe,Paul Ogendi,Winfred Kamau,Conrad Bosire,Ken Obura,Juliet Okoth,Ruth Aura-Odhiambo,2015-08-21 This publication is a collection of essays on human rights and democratic governance in Kenya in the period after the 2007 post elections violence After surviving the trauma of electoral violence the country soon embarked on a journey towards reconstruction by engaging in among other things intense re evaluation of the then existing system of laws and institutions In the process the daunting task has been to reverse the flawed systems that have been in existence for many decades and in their place entrench systems that would promote and respect democratic governance and human rights This publication therefore documents the extent of the country s reconstruction since 2007 and makes recommendations for the way forward for the recovery of the state War Tourism Bertram M. Gordon,2018-11-15 As German troops entered Paris following their victory

in June 1940 the American journalist William L Shirer observed that they carried cameras and behaved as naive tourists One of the first things Hitler did after his victory was to tour occupied Paris where he was famously photographed in front of the Eiffel Tower Focusing on tourism by German personnel military and civil and French civilians during the war as well as war

related memory tourism since War Tourism addresses the fundamental linkages between the two As Bertram M Gordon shows Germans toured occupied France by the thousands in groups organized by their army and guided by suggestions in magazines such as *Der Deutsche Wegleiter fr Paris* The German Guide for Paris Despite the hardships imposed by war and occupation many French civilians continued to take holidays Facilitated by the Popular Front legislation of 1936 this solidified the practice of workers vacations leading to a postwar surge in tourism After the end of the war the phenomenon of memory tourism transformed sites such as the Maginot Line fortresses The influx of tourists with links either directly or indirectly to the war took hold and continues to play a significant economic role in Normandy and elsewhere As France moved from wartime to a postwar era of reconciliation and European Union memory tourism has held strong and exerts significant influence across the country

We the Possibility Mitchell Weiss,2021-01-19 Can we solve big public problems anymore Yes we can This provocative and inspiring book points the way The huge challenges we face are daunting indeed climate change crumbling infrastructure declining public education and social services At the same time we ve come to accept the sad notion that government can t do new things or solve tough problems it s too big too slow and mired in bureaucracy Not so says former public official now Harvard Business School professor Mitchell Weiss The truth is entrepreneurial spirit and savvy in government are growing

transforming the public sector's response to big problems at all levels. The key Weiss argues is a shift from a mindset of Probability Government overly focused on safe solutions and mimicking so-called best practices to Possibility Government. This means public leadership and management that's willing to boldly imagine new possibilities and to experiment. Weiss shares the three basic tenets of this new way of governing: Government that can imagine. Seeing problems as opportunities and involving citizens in designing solutions. Government that can try new things. Testing and experimentation as a regular part of solving public problems. Government that can scale. Harnessing platform techniques for innovation and growth. The lessons unfold in the timely episodes Weiss has seen and studied: the US Special Operations Command prototyping of a hoverboard for chasing pirates; a heroin hackathon in opioid-ravaged Cincinnati; a series of experiments in Singapore to reinvent government in Covid-19 among many others. At a crucial moment in the evolution of government's role in our society, *We the Possibility* provides inspiration and a positive model along with crucial guardrails to help shape progress for generations to come.
