TEFL Tourism Hayley Stainton, 2019-07-22 There is evident lineage between the concepts of teaching English as a foreign language, TEFL, and tourism represented through evocative marketing material, the commoditisation of the TEFL product, teacher motivations and experiences. Yet to date there has been no recognition of these links within industry or academia. This book introduces the concept of TEFL tourism, outlining the scale of the sector and the rapid commercialization of TEFL teaching across the world, locating it as an emerging form of niche tourism. The text outlines the organisation types and geographical locations, emphasizing the commodification of English language teaching. It also outlines the types of TEFL tourists, the complexities of international education links with various tourism forms, and sustainability considerations of the industry. The book will appeal to tourism academics and students in particular those with interests in educational and volunteer tourism as well as sustainable tourism and commodification.

Teaching Tourism Edelheim, Johan, Joppe, Marion, Flaherty, Joan, 2022-02-22 Tourism as an activity is increasingly being criticised for its exploitative and extractive industrial approaches to business Yet it has the power to transform and to regenerate societies cultures and the environment The desire to explore the world around us is deeply embedded in many people s psyche but it comes at a cost to the environment and often to the residents of the visited communities Much of tourism education has been closely linked to preparing students for future professional practice but the challenges and opportunities linked to its consumption require that its future leaders must exhibit very different values and understandings to tackle ever more complex and wicked problems from which tourism cannot dissociate itself This compilation of values based learning experiences can be adapted to suit the needs and disposition of individual instructors and aims not only to engage students in the subject matter but also deepen their understanding of its complexity and interconnectivity and help them become global citizens that lead lives of consequence
