empirical richness of affective tourism Along with the contributors to this volume the editors make a case for thinking about emotions and affects through collective and individual practices as interrelated shaping tourism encounters in and with places That is to break it down as doing and as shared between bodies and places through the doing The chapters in this book were originally published as a special issue of *Tourism Geographies* **Gamification for Tourism** Feifei Xu, Dimitrios Buhalis, 2021-05-10 This book examines the cutting edge concept of gamification in tourism It provides a theoretical foundation for tourism gamification and discusses the concepts of gaming and gamification and their application in the tourism and hospitality industry The chapters offer valuable insights by showcasing examples of best practice from different countries and addressing key issues of game mechanism and game design principles They focus on areas such as game design elements game player types and their motivation location based games augmented reality and virtual reality games The volume will be useful for students and researchers in tourism marketing digital tourism smart tourism and tourism futures It also serves as a helpful tool for tourism industry practitioners looking to increase customer engagement enhance loyalty and raise brand awareness **Tourism in the Arab World** Hamed Almuhrzi, Hafidh Alriyami, Noel Scott, 2017-06-15 This book is the first to explore Arabic tourism from a business viewpoint rather than taking a sociological anthropological or political stance It focuses on business planning management and marketing destinations in the Arab World which are topics crucial for industry stakeholders and which have previously been neglected in the tourism literature The book examines similarities and differences in the emergence and development of the tourism industry in countries across the Arab world as well as its inbound and outbound travel flows It analyses several different aspects of Arabic tourism including tourism policy organisation and planning tourism product development destination marketing and consumer behaviour This volume will be of interest to postgraduate students and researchers of tourism studies business and Middle Eastern studies *Tourism in Pacific Islands* Stephen Pratt, David Harrison, 2015-02-20 Pacific Island Countries have been shown to be especially vulnerable to such external influences as natural disasters political unrest and downturns in the global economy and their tourism industries have been notably affected In particular they typically have a narrow resource base and a fragile and often vulnerable natural environment While there is some research on islands and small states there is a dearth of information on the South Pacific and very little research is being undertaken in the region compared to other geographical regions in the world This volume brings together current work in Pacific Island tourism In this collection three main themes arise Images of the South Pacific Socio economic Impacts of Tourism and Pacific Island Countries and the Outside World The first focus is on the question of image namely stereotypes of a destination held by tourists and potential tourists the extent to which residents for their part really welcome visitors and the role tourism might play in changing pre established images The second theme is tourism s impacts notably the economic and socio cultural effects of international tourism s intrusion in the region which though often hotly debated have attracted relatively little empirical research The third focus is on the challenges of how PICs

articulate with their external geo political and physical environment These involve existing relations with formal colonial centres geographical isolation the need for greater air access to the outside world and for more tourists and the continuing threat to several PICs of global warming which increased air travel will inevitably exacerbate This text will be of interest to tourism students researchers and academics in the fields of tourism development studies and cultural studies *Elgar Encyclopedia of City and Place Branding* Eduardo Oliveira,Efe Sevin,Emma Björner,2025-06-09 This Encyclopedia presents a comprehensive overview of the dynamic field of city and place branding Authored by nearly 150 experts from across the globe it covers a wide variety of disciplines methodologies and perspectives highlighting cutting edge developments and exploring avenues for future research
