Teaching Cases in Tourism, Hospitality and Events Saurabh Kumar Dixit, Senthilkumaran

Piramanayagam, 2023-02-28. The tourism, hospitality and events industries comprise one of the largest and most diverse workforces in the world, creating high demand for graduates with strong technical and managerial competencies. Case-based learning encourages students to think, understand and apply the concepts and theories they're taught into practical, everyday situations faced in the world of work. Providing a broad selection of extensive global cases, this book forms a comprehensive one-stop shop resource for readers to test their analytical skills and abilities in solving complex management issues. Cases include teaching notes to reflect theoretical perspectives as well as questions, detailed learning activities and solutions. A useful and engaging read for students of tourism, hospitality and events, this book is also a valuable compilation of examples of practice for people working in industry.

Accessible Tourism Dimitrios Buhalis, Simon Darcy, 2011.

Inclusion, disability, an ageing population and tourism are increasingly important areas of study due to their implications for both tourism demand and supply. This book therefore sets out to explore and document the current theoretical approaches, foundations and issues in the study of accessible tourism. In drawing together the contributions to this volume, the editors have applied broader social constructionist approaches to understanding the accessible tourism phenomena. Accessible tourism, as with any area of academic study, is an evolving field of academic research and industry practice. As with other areas of tourism, the field is multidisciplinary and is influenced by various disciplines including geography, disability studies, economics, public policy, psychology and marketing. As one would expect from two scholars at the height of their academic abilities, Dimitrios Buhalis and Simon Darcy have delivered a timely and much-needed contribution to the under-served area of accessible tourism. Harnessing the best conceptual developments on the topic, *Accessible Tourism* is a scholarly yet hugely readable collection and readily communicates the various contributors' passion for and command of their subject. This collection is a must-have text for anyone engaged in the theory, practice and policy of accessible tourism and will be essential reading on
