ILCE-6700 Help Guide

Preparations

Checking the supplied items

The number in parentheses indicates the number of pieces.

- Camera (1)
- Rechargeable battery pack NP-FZ100 (1)
- Shoulder strap (1)
- Eyepiece cap (1)
- Body cap (1)
 - * Only for the ILCE-6700/ILCE-6700M
- Shoe cap (1) (attached to the camera)
- Startup Guide (this manual) (1)
- Reference Guide (1)

Inserting the battery pack (supplied)/memory card (sold separately) into the camera

Open the battery cover and the memory card cover, insert the battery/memory card, and close the covers.

Insert the battery pack while pressing the lock lever.

Ensure the matched corner faces correctly.

This camera is compatible with SD memory cards. When you use a memory card with this camera for the first time, format the card using the camera in order to stabilize the performance of the memory card.

Charging the battery pack

To an external power source

- 1 Turn the power off.
 - * If the camera is turned on, the battery pack will not be charged.
- 2 Using a commercially available USB Type-C cable, connect the USB Type-C terminal on the camera to an external power source, such as a commercially available USB AC adapter or mobile battery.
 - * The charge lamp will light up when charging starts. When the charge lamp turns off, charging is completed.

This camera is compatible with USB-PD (USB Power Delivery). When a device compatible with USB-PD is connected to the camera, fast charging is possible. We recommend using a USB-PD device that is compatible with an output of 5 V/3 A or 9 V/2 A.

Attaching a lens

- 1 Mount the lens by aligning the two white index marks (mounting indexes) on the lens and camera.
- 2 While pushing the lens lightly toward the camera, turn the lens slowly in the direction of the arrow until it clicks into the locked position.

Performing initial setup for the camera

By establishing a Bluetooth® connection (pairing) between the camera and a smartphone, you can perform initial camera setup (such as date and time settings) from the smartphone. Install the dedicated application on your smartphone in advance, and then follow steps 1 to 4 under "Procedures for initial camera setup."

Installing the dedicated smartphone application

Install the application from the following website. Also, update to the latest version of the dedicated application. The specifications of the dedicated application may change without notice.
<https://www.sony.net/ea/>

Procedures for initial camera setup

Control wheel's center button

- 1 Set the ON/OFF (Power) switch to "ON" to turn on the camera.
- 2 Select the desired language and then press the center of the control wheel.
 - * The primary notice screen will appear. Read the primary notice regarding limitations by opening the link using your smartphone, etc.
- 3 Press the center of the control wheel.
- 4 Follow the instructions on the camera screen to connect the camera with your smartphone and perform the initial setup.
 - * You can also configure or change the initial settings later from the MENU of the camera.

Connecting (pairing) the camera with your smartphone later

For details on the connection method, refer to the following Help Guide URL:
https://vef.sony.net/help/0a/2320/pairing/0a_us/

Shooting still images

Still/Movie/S&Q dial

- 1 Turn and set the Still/Movie/S&Q dial to **[S]** (Still).
- 2 Select the desired shooting mode by turning the mode dial.
- 3 Press the shutter button halfway down to focus.
- 4 Press the shutter button all the way down.

Notes on use

Refer to "Precautions" in the "Help Guide" as well.

Notes on handling the product

- * Do not leave the lens or the viewfinder exposed to a strong light source such as sunlight. Because of the lens's compensating function, doing so may cause white, fog, or a malfunction inside the camera body or the lens. If you have to leave the camera exposed to a light source, such as sunlight, point the lens cap to the lens.
- * If sunlight or other strong light enters the camera through the lens, it may focus inside the camera and cause white or fog. Attach the lens cap when closing the camera. When shooting with backlighting, keep the lens sufficiently far away from the angle of view. It is slightly easier from the angle of view, inside or the lens may still focus.
- * Do not look at sunlight or a strong light source through the lens when it is detached. This may result in irreversible damage to the eyes or cause a malfunction.
- * The camera (including accessories) that magnifies light may interfere with pacemakers, programmable shock waves for hydrophobic treatment, or other medical devices. Do not place the camera close to persons who use such medical devices. Consult your doctor before using this camera if you use any such medical device.
- * Increase the volume gradually. Sudden loud sounds can damage your ears. Be especially careful when listening to headphones.
- * Do not leave the camera, the supplied accessories, or memory cards within the reach of infants. They may be accidentally swallowed. If this occurs, consult a doctor immediately.
- * When shooting with the viewfinder, also pay attention to symptoms such as dizziness, nausea, motion sickness, or motion blur. If you feel any of these symptoms, stop shooting immediately when you are shooting with the viewfinder.
- * If the monitor or viewfinder viewfinder is damaged, stop using the camera immediately. The damaged parts may harm your hands, face, etc.
- * When shooting still images continuously, the monitor or viewfinder may flash between the close-up and wide-angle views. If you keep recording close-up or then shooting, you may experience uncomfortable symptoms such as feeling of numbness. If you experience uncomfortable symptoms, stop using the camera, and consult your doctor as necessary.
- * When recording or shooting for long periods of time or recording 4K videos, if the camera gets too hot, the camera may stop recording or the camera may stop shooting. If the camera does not shut off by itself, it may cause symptoms of a low-temperature burn such as redness or blistering. Pay special attention in the following situations and use a tripod, etc.
 - When using the camera in a high temperature environment.
 - When someone with poor circulation or impaired skin sensation uses the camera.
 - When using the camera with (Auto) Power Off Temp. set to [High].

Some lenses/accessories using this unit with products from other manufacturers may affect its performance, leading to accidents or malfunctions.

Notes on the 5-GHz band for wireless LAN

When using the wireless LAN function outdoors, set the band to 2.4 GHz by following the procedure below (Wi-Fi/Off/On).

• Wi-Fi/On → [Wi-Fi/Off/On] → [2.4 GHz] → [2.4 GHz (frequency band)]

How to turn off wireless network functions (Wi-Fi, etc.) temporarily

When you finish an expense, etc., you can turn off all wireless network functions temporarily using (Sleep/Standby).

For Customers in the U.S.A. and Canada

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment has very low levels of RF energy that is deemed to comply without testing of specific absorption rate (SAR).

The available scientific evidence does not show that any health conditions are associated with exposure to low-level RF energy. However, that there are some wireless devices and applications with low-level RF energy. Wireless devices emit low levels of radio frequency energy (RFE) in the microwave range while being used. Wireless light levels of RF can produce health effects (heating tissue), exposure of low-level RF that does not produce heating effects causes unknown adverse health effects. Many studies of low-level RF exposure have not found any biological effects. Some studies have suggested that some biological effects might occur, but such findings have not been confirmed by additional research.

This equipment has been tested and found to comply with FCC radiation exposure limits set forth for an uncontrolled environment and meets FCC 102 of the FCC radio frequency (RF) exposure limits.
