your right ear, and the one marked "LEFT"
on your left ear.

Adjust to the desired position.

Note

When using the unimatch plug adaptor
(supplied), attach securely by screwing

Precautions

Preventing hearing damage

Avoid using headphones with the volume
turned up for an extended period of time.
Doing so can damage your hearing. It is
advisable to keep the volume at a moderate
level at all times.

Road safety

Never use headphones while driving or
cycling, etc. It can be dangerous to turn up
the volume too much even while walking.
Doing so may hinder your hearing and can
be hazardous especially at level crossings or
pedestrian crossings.

Caring for others

Remember not to disturb people around you
with the sound leaking from your
headphones. Keep the volume level
moderate even in noisy places so that you
will be able to hear other people when they
talk to you.

Notes on usage

- Do not put weight or pressure on the
headphones as it may cause the
headphones to deform during long
storage.
- Do not subject the headphones to strong
shock by dropping or banging.
- Handle the unit part with care.
- Do not leave the headphones in a location
subject to direct sunlight, heat or
moisture.
- Leaving the plug dirty may cause sound
distortion.
- Clean the headphones with a soft dry
cloth.
- Do not use strong solvents (benzene,
alcohol, etc.) when cleaning the
headphones. Doing so may cause
discoloration, deformation, deterioration
and other damages.
- Newly developed foam-repulsion synthetic
earpads work best to your wearing
comfort at temperatures of about 10 °C or
higher (room temperatures). The earpads
may feel rather hard in the low
temperature settings. This does not
indicate deterioration of the earpads.
Their original softness will be restored at
room temperature.
- The earpads may deteriorate due to
long-term storage or use.
- For changing the earpads or repainting the
headphones, please consult a Sony dealer.
