

VPL-EX1

ULTRA COMPACT LCD PROJECTOR

Whether you're visiting a client, in the classroom or in a boardroom meeting, a great-looking presentation makes all the difference in getting your point across.

Projecting bright and high-resolution pictures, simple to set up and easy to use, the VPL-EX1 helps you to get your message across effectively and clearly. Just switch it on and let the projector look after the rest – you are free to concentrate on your audience.

Intelligent Auto-setup

When you're ready to present, just turn on the power and a number of sophisticated functions are initiated automatically, making it easier than ever to get started.

• Powered Lens Protector

The powered lens protector opens automatically. You'll never again spend time looking for a missing lens cover – it's always safe on the projector.

• Powered Tilt Adjuster and Auto Keystone Correction

A power-operated tilt adjuster sets the shooting angle and keystone distortion is automatically corrected according to the tilt angle. Your presentations will be displayed correctly even if you don't have a lot of room. Settings are held in memory and can be recalled.

• Smart APA (Auto Pixel Alignment)

The Smart APA function ensures that the display size is always optimised with no need to adjust the projector or your PC.

• Auto Input Search

The VPL-EX1 automatically detects an input signal and projects images instantly – no manual selection of input signals is needed.

Freeze Function

You can freeze-frame your presentation on the projector, so that the audience sees only that one slide while you can switch between documents on your PC.

Security

A password can be set to restrict unauthorised use of the projector. In addition, an anti-theft ceiling mount is available for added security.
