Art and Creativity in an Era of Ecocide Anna Pigott, Owain Jones, Ben Parry, 2023-09-21

What can creativity achieve in an era of ecocide? How are people using creative and artistic practices to engage with and resist the destruction of life on earth? What are the relationships between creativity and repair in the face of escalating global environmental crises? Across twelve compelling case studies, this book charts the emergence of diverse forms of artistic practice and brings together accounts of how artists, scholars, and activists are creatively responding to environmental destruction. Highlighting alternative approaches to creativity in both conventional art settings and daily life, the book demonstrates the major influence that ecological thought has had on contemporary creative practices. These are often more concerned with subtle processes of feeling, experience, and embodiment than they are with charismatic eco-art works. In doing so, this exploratory book develops a conception of creativity as an anti-ecocide endeavour and provides timely theoretical and practical insights on art in an age of environmental destruction.
