Ken Garner, 2010-12-15 This is a story of teenage dreams which as any Peel fan knows are hard to beat Between 1967 and 2004 John Peel picked over 2000 bands to come and record over 4000 sessions to be played on his radio show Many were young and had never been in a recording studio before for some it was the start of an illustrious career for others it was the only recognition their musical talent ever got For over 35 years the cream of British musical talent made the journey to the BBC's studio in Maida Vale from Pink Floyd to Pulp the Small Faces to the Smiths And because John Peel was so respected his sessions took on a legendary status they were a rite of passage that every new band wanted to go through Unfettered by commercial pressure the Peel Sessions were a unique British institution an archive of music that reflects one man's passion for finding and encouraging new music Includes a full sessionography listing songs band members and broadcast dates Jarvis Cocker writing about his first Peel Session aged 18 Wayne the drummer was 15 We travelled down to Maida Vale in a van driven by a very strange man we'd contacted via a card pinned to the Virgin record shop noticeboard We'd had to borrow lots of equipment from a band called The Naughtiest Girl Was a Monitor cause we didn't have enough stuff of our own The session was to be produced by Dale Griffin who used to be the drummer in Mott the Hoople I seem to remember that he was wearing cowboy boots I think the crisis point came when Wayne was attempting to get a home made synth drum to work that a friend of his at school had made out of a rubber burglar alarm mat and an old electronic calculator Dale Griffin looked at

this 15 year old kid crouching on the floor bashing what looked like a doormat with some wires coming out of it and just put his head in his hands But to his credit the session did get finished and after it everything else started for me Extension Bulletin ,1916 **MEDINFO 2017: Precision Healthcare through Informatics** Marie-Christine Jaulent,Dongsheng Zhao,2018-01-15 Medical informatics is a field which continues to evolve with developments and improvements in foundational methods applications and technology constantly offering opportunities for supporting the customization of healthcare to individual patients This book presents the proceedings of the 16th World Congress of Medical and Health Informatics MedInfo2017 held in Hangzhou China in August 2017 which also marked the 50th anniversary of the International Medical Informatics Association IMIA The central theme of MedInfo2017 was Precision Healthcare through Informatics and the scientific program was divided into five tracks connected and digital health human data science human organizational and social aspects knowledge management and quality and safety and patient outcomes The 249 accepted papers and 168 posters included here span the breadth and depth of sub disciplines in biomedical and health informatics such as clinical informatics nursing informatics consumer health informatics public health informatics human factors in healthcare bioinformatics translational informatics quality and safety research at the intersection of biomedical and health informatics and precision medicine The book will be of interest to all those who wish to keep pace with advances in the science education and practice of biomedical and health informatics worldwide **Farmers' Review** ,1903
